'I Never Saw So Many Babies
On Shipboard,' Says
Congress Survivor

COAST LINER TOTAL
WRECK IN FLAMES

Special Trains Rush Aid to
Sufferers, Many of Whom
Are Thinly Clad

MARSHFIELD, Ore., Sept. 15.—With smoke pouring from her upper works and her steel plates still red hot in some places from the blaze inside of her, all that was left of the Pacific Coast Steamship Company's crack coast liner Congress today lay two miles off Coos Bay bar, a total loss. Special trains were arriving early today with aid for the crew and passengers. Many of those aboard were thinly clothed and penniless.

Officers of the liner are unable to tell how the fire started. Nothing is left of the steamer but the metal parts.

The first broke out last night. Vessels responding to distress calls helped remove the passengers and crew. No lives were lost.

Smoke still was drifting from the blackened bulk at noon.

A report that several passengers had been overlooked and suffered in their staterooms was denied by officers.

A special train from Eugene, Ore., to convey the passengers to Seattle is expected and was due early this afternoon.

It is eagerly awaited by the thinly clad women and children who were rescued from the floating furnace.

Large numbers of the rescued were lying sick in their berths when the steamer caught fire.

"I never saw so many babies and little tots on shipboard before," said Mrs. D. K. Smith of Seattle. "This added to the danger but nearly everyone was composed. Some were hysterical but most of the passengers joked and laughed as the decks became hotter and hotter while the rescue work progressed."

With all the passengers and crew of the Congress safe on board, the dredge, Col. P. S. Michle, docked at North Bend, near here, last night.

The Congress left San Francisco Wednesday for Seattle. On board were 216 first cabin passengers and thirty-seven steerage. From Southern California ports there were 112 passengers. The crew of 175 was in command of Captain N. E. Cousins.

The original cost of the Congress was \$1,250,000 and to replace her now would cost \$2,000,000, the owners say.

The fire started somewhere in the cargo under the second steerage, aft, officers said.

The train from Eugene arrived for the refugees.

COUPLE ARRESTED AT
LONG BEACH; HUSBAND
FACES BAD CHARGE

LOS ANGELES, Sept. 15.—Nellie Beltram of Burley, Idaho, and W. A. Beltram, her husband, were arrested by federal authorities for alleged violation of the Mann white slave act.

Beltram is charged in a complaint issued by Special Agent Blanford of the Department of Justice with transporting his wife from Idaho to Las Vegas, Nev., in violation of the federal statute.

Beltram denied the charge against him and said that he had "done no wrong."

He declares that he will immediately take steps with the authorities at Burley to establish his innocence.

COFFEE SHORTAGE IN
FINLAND AS SWEDEN
HITS AT BRITISH ACT

BERLIN, Sept. 15.—Presumably in retaliation of the stoppage of coffee shipments to Sweden by the British government, Sweden has detained ten thousand tons of coffee destined for Finland. A great scarcity of coffee in Finland is the result.

Bliss Outlines Plan

LONDON, Conn., Sept. 15.—General Bliss, assistant chief of the general staff, today told the commissioners that if General Pershing withdraws he must be replaced by Mexican soldiers. Luis Cabrera, head of the Mexican delegation, replied that he personally believed that Carranza is prepared to send in troops to relieve Gen. Pershing's force, but that he (Cabrera) did not desire to commit the Mexican government, without consulting with Mexico City.

Gigantic U. S. Shell
Hits House Where
Gunner's Family Is

Big Bullet Richochets After
Going Through Armor
Plate and Sand

WASHINGTON, Sept. 15.—One of the first sixteen-inch shells ever fired in America today ricocheted a mile into the air and crashed through the home of Mrs. Mary Swan after penetrating heavy armor and a huge sand bank at the government grounds at Indian Head, Maryland.

Mrs. Swan was just finishing preparing dinner for her husband, who was one of those who worked the gun. She and her three daughters were in the room when they heard an awful crash.

A huge, shiny, hot steel bullet crashed through the next room. None was injured.

The children are now straddling the huge shell, using it as a hobby horse.

The big gun has been fired several times without accident and it is said that this is not the first instance at Indian Head of a big shell penetrating the armor at which it had been shot and then ricocheting off the test grounds, but none ever went beyond the danger distance before.

Houses in the vicinity of Swan's are supposed to be far enough away to be safe.

LINER TORPEDOED, IS
STATEMENT OF YANKEE
EMPLOYED ON BOARD

LONDON, Sept. 15.—Frank Callingham, a Philadelphia fireman aboard the Harrison liner Counselor, today made an affidavit before the United States consul at Queenstown that the Counselor was torpedoed. The captain and crew of the Counselor were landed at Queenstown.

SLAYER BREAKS FROM
SLEUTHS, LEAPS FROM
FLYING TRAIN, IS HURT

NEW YORK, Sept. 15.—Arthur Waltenen, self-confessed accomplice in the murder of Mrs. Elizabeth Nichols, an aged New York widow who was killed and robbed of \$16,000 in jewelry about a year ago, today hurled himself from a New York Central flyer in an attempt at suicide or escape while detectives were bringing him from Ironwood, Mich. He was picked up severely injured.

OWNERS OF STAR OF
CHILE DENY VESSEL
HAS RUN AGROUND

SAN FRANCISCO, Sept. 15.—The report that the bark, Star of Chile, was aground off Point Pedro, south of the Golden Gate, today was denied by the Alaska Packers' Association, owners of the vessel.

SAN FRANCISCO, Sept. 15.—The Alaska Packers' bark Star of Chile was reported in the breakers near Point Pedro, twenty-five miles south of the Golden Gate last night.

Italian fishermen, scudding from the fishing banks of Half Moon Bay, gave the warning of this new tragedy in the treacherous south shore currents.

The fog hid the vessel. The bark, which was returning from Bristol Bay with the season's catch, had no wireless.

Two hundred cannery hands from Bristol Bay are supposed to be on board the Star of Chile.

The fishermen reported the boat three-quarters of a mile off shore and signaling for help. The tug Fearless left at once for the scene.

The Star of Chile is 1001 gross tonnage, 202 feet in length, thirty-four feet wide and twenty-four feet deep. She carries a crew of twelve and was built in 1868 in Dundee, Scotland.

GUNNERS OF U. S. HIT
UNSEEN TARGET AT 11
MILES, WORLD RECORD

WASHINGTON, Sept. 15.—A new world's record in naval gunnery has been reported by the new superdreadnaught Pennsylvania, the Navy Department has announced. Credit for the feat is given to the big battleship's twelve 14-inch rifles, mounted as a main battery in four turrets, which on a simultaneous discharge in a recent trial recorded five hits on a small target eleven miles away. At that distance a target is not visible to the gunners.

The Pennsylvania is the first vessel to have its main battery mounted three guns to a turret, and her performance is declared by ordnance and construction officers to be the final answer to critics opposing the three-gun turrets system.

IMPORTANT 'DRY'
MEETING THIS
EVENING AT
CITY HALL

'The Coming Reformation'
Will Be Subject of Address
By Judge W. H. Thomas

'The Coming Reformation' will be the subject of an address to be delivered this evening at a meeting of the 'Drys' at the city hall at 7:30 by Judge W. H. Thomas.

The meeting will be one of great importance and a large attendance is desired.

Rev. S. W. Stone will speak of the value of the Prohibition national special train passing through California, and which is scheduled to stop in this city. The work of the speakers on the train is expected to have a very beneficial effect in advancing the dry cause in this state.

A ladies' quartet from the German Evangelical Church will furnish special music.

FINAL BATTLE PLANS
FOR 'DRY' CALIFORNIA
TO BE LAID IN L. A.

LOS ANGELES, Sept. 15.—A. J. Wallace, former lieutenant governor of California, will be toastmaster at the banquet to be given in Hamburger's Cafe tomorrow night. Covers will be laid for 500, and some of the best-known business men and women of Los Angeles will attend. Arthur A. Lett of Oakland, the Rev. J. Whitcomb Brougher and D. M. Gandier will be the speakers.

Plans for the final windup of the campaign to make California dry will be discussed at the banquet board. Those who have a part in this fight will be on hand to tell the news from the front. From all over the United States and Canada wires will be sent direct to the headquarters.

Mayor McBeath of Vancouver, where the fight will be settled today, has agreed to send the news of the struggle. N. W. Rowell of Toronto, Canada, where the 'drys' have won and where the laws will go into effect September 15, will also tell the news of the first day's events. Chief Magistrate Hugh John McDonald of Winnipeg, one of the largest 'dry' cities in America, will communicate with the toastmaster.

This banquet promises to be the largest and most important of its kind ever held in the West. The demand for tickets has been such that space will be at a premium. The speakers are all well-known men who have been in the forefront of the present battle being waged by the drys.

'BELLE HELL' GIVING
WAY TO 'TIPPERARY'
IN RANKS OF BRITISH

LONDON, Sept. 15.—"Tipperary" has given way at the battle front to a new song, whose raggy theme is that bullets always get the other fellow. The new piece, which threatens to be as popular as "Tipperary," runs as follows:

"Belle hell, go tingalingaling,
For me angels singalingaling,
For me angels singalingaling,
They're not the goods for me.
Oh, death where is thy stingalingaling?
O, grave thy victoree?
Belle hell, go tingalingaling,
For you but not for me."

VENICE MAN BEATEN
TO DEATH AND ROBBED
IN MYSTERY ATTACK

LOS ANGELES, Sept. 15.—Believed to have been robbed and beaten into unconsciousness, his skull fractured and his jaw broken by blows from some heavy weapon, John R. Evans, aged 35, of Venice, caretaker of the Venice Gun Club grounds, died at the St. Catherine hospital early today.

Evans was found unconscious on the Playa del Rey car line tracks at 2 o'clock this morning.

His face was cut and bruised, his jaw broken and his skull fractured by blows from a club or iron bar.

Officers discarded the theory that he had been struck by a passing street car.

Mrs. Evans, called from her home, told the officers that her husband had nearly \$50 with him yesterday afternoon when he left home.

The money was not in the man's pockets when he was found on the car tracks.

DALLAS OPENS HUGE
NEW UNION STATION

DALLAS, Texas, Sept. 15.—Dallas' \$5,000,000 union passenger station was opened to the general public today. It is patterned after the big new Kansas City terminal.

UNITED FACTIONS
BY FORMING OF
NEW CLUB FOR
REPUBLICANS

Call Issued For Meeting to Be
Held At City Hall Next
Tuesday Evening

To all Republicans: A call for a meeting to be held at 7:30 o'clock Tuesday evening, September 19, at the Santa Ana city hall, is hereby issued. The purpose of this meeting is to form a new Republican club to support all Republican nominees.—Dr. C. D. Ball, P. L. Tople, Mrs. Jean Grubb, Dr. R. A. Cushman, R. Y. Williams, J. P. Baumgartner, W. F. Menton, T. E. Stephenson, E. E. Keech, Walter Eden.

A new Republican club to take the place of the two factional clubs that have thus far been active in campaigning is to be organized next Tuesday night at the Santa Ana city hall.

At a conference of committees last night, it was decided that the most advisable method of amalgamating the two factions of Republicans in order to make a united fight for Republican nominees this fall is to organize a new club.

Last week the Johnson-for-Senator Club, which made the local campaign for Gov. Johnson in his fight for the Republican nomination for United States senator, appointed a committee consisting of Dr. C. D. Ball, E. E. Keech, Mrs. Jean Grubb, J. P. Baumgartner and P. L. Tople to propose to the Orange County Republican Club that some steps be taken for the uniting of the clubs.

In response to this suggestion, W. F. Menton, president of the Orange County Republican Club, appointed R. Y. Williams, Dr. R. A. Cushman, Walter Eden and T. E. Stephenson to meet with him and the committee from the Johnson-for-Senator Club.

The motion to organize a new club was made by Eden and was seconded by Tople, and carried unanimously, at the conference held last night in Attorney Menton's office.

WEBB'S RULING BARS
STUDY OF BIBLE FROM
CAL. COMMON SCHOOLS

SACRAMENTO, Sept. 15.—Unable to satisfy the repeated demands for the introduction of Bible study in the public school curriculum or to give the schools some form or degree of supervision over Bible study, whether in Sunday school or not, the State Board of Education recently applied to Atty. Gen. U. S. Webb for an interpretation of the state law, and received a very definite answer to the effect that the Constitution prohibited instruction upon sectarian or denominational doctrines, either directly or indirectly in the schools of the state.

The inquiry directed to Webb asked: "May credit be given toward graduation from a California high school for literary and historical study of the Bible when taken in Sunday schools and under other agencies outside of the high school, whether or not under teachers certified by the state?"

All these things Brennan told the jury in his opening statement last Tuesday that he would prove and argued to the court that he must prove that in order to show that Billings had entered in a criminal conspiracy with Thomas J. Moore, that he had the peculiar knowledge necessary to construct a bomb and that he had a criminal intent in placing the fatal suitcase at Stewart and Market streets July 22.

After a whole day of argument, Judge Frank H. Dunne ruled:

"I sustain the objection on the ground that this is not a case where the charge may be proved by showing acts of a similar nature."

The immediate application of the ruling, according to Judge Dunne, is to the Sacramento case, on which the objection was raised, but according to Maxwell McNutt, chief counsel for Billings, it sweeps out of the trial all the so-called conspiracy evidence.

To Refute Evidence

As an incident to the big battle of the day Attorney Maxwell McNutt made the revelation that Billings' defense will be a straightforward refutation of the evidence offered by the district attorney. There will be no attempt, he said, to set up any ingenious explanation that the explosion was an accident or a mistake.

Both District Attorney Eckert and Assistant District Attorney Brennan, who is conducting the trial, say the ruling does not materially affect their case.

JAP FLIER HURLED TO
HIS DEATH NEAR L. A.

TROPICO, Cal., Sept. 15.—Frank Onye, a Japanese aviator, today was killed in a 300-foot fall at the Griffith Park aviation field.

NEWHALL MOUNTAIN
FIRE SAID CHECKED

SAN FERNANDO, Sept. 15.—The fire in the Newhall mountains is believed to have been checked. Twenty-five men are still fighting the fire. Two square miles have been burned.

MACKENSEN DEVISES
NEW MEANS TO FOIL
ALLY BALKAN SMASH

LONDON, Sept. 15.—Field Marshal Von Mackensen, in supreme Teutonic command of the Balkans, has arrived at the Balkan front to direct the defenses against the new allied onslaughts.

It is reported that the German and Bulgarian commanders are hastily regrouping their forces in Macedonia. Large forces have been concentrated in the Vardar valley to meet the expected Anglo-French offensive.

Greece's intervention in the war is still delayed by diplomatic negotiations. Dispatches from the Greek capital today said that King Constantine has summoned his political leaders in a new effort to find a prime minister who would guide Greece into a war and at the same time unite the opposing factions of Greece.

Fighting on the whole allied left wing is growing more violent daily.

WAY FOR UNITY IN
MEXICO IS PAVED

MEXICO CITY, Sept. 15.—Mexico is about to resume its place among the republics of the western hemisphere, after four years of revolution. A decree issued by de facto President Carranza today on the eve of the celebration of Mexican independence prepares the way to prevent the de facto from being displeased by substantial Constitutional government. The decree makes provision for a national congress to be elected on October 15 and provides that each state and territory elect a deputy and sub-deputy for each seventy thousand population.

CINCINNATI, Sept. 15.—With nothing to fear from the bold bad Federal league, major league baseball magnates today gathered for the annual draft of minor league players. Last year, because the Federals were snooping to get a line on new material, the conference was held in secret.

This year's draft of minor leaguers will be one of the heaviest known, according to John Bruce, secretary of the national commission.

The drafting session is being delayed pending the arrival of the president of the National League.

Bruce said that there would be a total of about 125 drafts from the minors. Every club in the minors with the exception of the championship club will draft one or more players.

BOTH SIDES SCORE AT
BILLINGS' TRIAL ON
BOMB DEATH CHARGE

SAN FRANCISCO, Sept. 15.—Both sides today scored at the trial of Warren K. Billings, charged with murder in connection with the preparedness bomb explosion. Despite objections by defense counsel McNutt the state succeeded in interjecting testimony by Chief of Police White and Traffic Sergeant Goff showing that Billings told widely divergent stories following his arrest. To offset this victory of the state the defense succeeded in having barred evidence regarding dynamite said to have been stored near Tanforan by Billings.

The fourth day of the trial was marked by Billings winning an all-day battle to shut out of the case all mention of his previous dynamite feats, alleged and otherwise.

Assistant District Attorney Brennan fought hard to introduce evidence of Billings' trip to Sacramento with a suitcase full of dynamite in 1913, when he was convicted of transporting high explosives on a street car; testimony on the allegations that Billings carried a suitcase full of dynamite to Tanforan and hid it there on the night of June 26 a few days after the blowing up of the San Bruno electric towers; testimony to show his connection with the dynamiting of the towers, and testimony that he had boasted of a bomb job in Chicago.

Testimony Ruled Out

All these things Brennan told the jury in his opening statement last Tuesday that he would prove and argued to the court that he must prove that in order to show that Billings had entered in a criminal conspiracy with Thomas J. Moore, that he had the peculiar knowledge necessary to construct a bomb and that he had a criminal intent in placing the fatal suitcase at Stewart and Market streets July 22.

After a whole day of argument, Judge Frank H. Dunne ruled:

"I sustain the objection on the ground that this is not a case where the charge may be proved by showing acts of a similar nature."

The immediate application of the ruling, according to Judge Dunne, is to the Sacramento case, on which the objection was raised, but according to Maxwell McNutt, chief counsel for Billings, it sweeps out of the trial all the so-called conspiracy evidence.

To Refute Evidence

As an incident to the big battle of the day Attorney Maxwell McNutt made the revelation that Billings' defense will be a straightforward refutation of the evidence offered by the district attorney. There will be no attempt, he said, to set up any ingenious explanation that the explosion was an accident or a mistake.

Both District Attorney Eckert and Assistant District Attorney Brennan, who is conducting the trial, say the ruling does not materially affect their case.

N. Y. STRIKE BROKEN,
ASSERT OFFICIALS OF
BIG SURFACE SYSTEMS

NEW YORK, Sept. 15.—With subway and elevated lines running at better than normal capacity and taking care of the overflow from the tied up surface lines, officials of New York's traction systems today declared that the carmen's strike had been broken. With some ten thousand former employees sticking with the strike, union labor leaders continued with their threat that unless a settlement, which has been refused by the traction chiefs, is made on their own terms they would tie up the city on Monday with a sympathy strike.

WILSON OUTLINES HIS
PLAN OF ATTACK ON
REPUBLICAN FORCES

ASBURY PARK, N. J., Sept. 15.—Vigorous attacks on the Republicans' charges of sectionalism under the Democratic administration and amplification of his position on the eight-hour law settling the railroad controversy will mark President Wilson's early campaign speeches, it was learned today. Democratic leaders believe that Charles E. Hughes is determined to make these the paramount issues.

ILLINOIS UNIVERSITY
ENTERS GOLF TOURNEY

PITTSBURGH, Sept. 15.—The University of Illinois is the first western college to enter an intercollegiate golf tourney. This team is taking part in the annual tournament here today on the links of the Oakmont Country Club. Six other colleges are entered: Cornell, Williams, Yale, Harvard, Princeton and Pennsylvania.

GOTHAM HEARS GRAND
OPERA IN OPEN AIR

NEW YORK, Sept. 15.—Six dollar grand opera will be reduced to 25 cents at two performances to be given in City College Stadium here today. For two bits the Metropolitan soloists and orchestra may be heard. The performances are to be benefits for the Civic Orchestra Society.

GERMAN 'WONDERWORK'
STORMED BY BRITISH

French Reach Rancourt;
Serbs Rout Bulgars, Cap-
ture Two Villages

BY ED. L. KEEN
LONDON, Sept. 15.—The British have broken the German third line in a great assault inaugurated this morning, says a Reuter dispatch. It is reported that the villages of Martinpuich and Flers have been captured. The British swept forward to within two miles north of Comblès. The movement threatens to surround and capture the stronghold. These are the greatest gains made since the offensive began in July.

LONDON, Sept. 15.—The two greatest battles fought in Europe in many weeks are raging on the Somme and on a seventy-five-mile front in northern Greece.

Striking allied victories were today announced.

The British right advanced more than a mile and a quarter on a six-mile front. General Sir Douglas Haig reported. The struggle is continuing and large numbers of prisoners are being brought in.

The British left on a front of more than a mile near Thiepval captured a German "wonderwork," a fort which the Germans had thought impregnable.

The French advanced to the edge of the village of Rancourt.

In the Balkans the Serbians drove the Bulgarians along a front of ten miles on the allied left wing and captured two villages.

The British captured nearly a mile of Bulgarian trenches.

The Italians captured Austrian entrenchments east of Vallone, taking 2,117 prisoners.

The German war office for the first time since the allies took the offensive in Macedonia has admitted an allied success. Berlin today announced that the Serbs had captured Marindia positions but claimed the repulsing by the Germans of the British, who gained a temporary success in the Vardar valley.

RECORD FLIGHT MADE
BY ALL FLIERS

PARIS, Sept. 15.—A French war plane, one of four raiders that bombarded Sofia, flew across Bulgaria from Greece and landed at Bucharest, an official statement issued today said.

4 PROBES TOO MUCH
FOR PENNA. SAVANT;
HE QUILTS HIS OFFICE

HARRISBURG, Sept. 15.—Having weathered four investigations of the affairs of his office, since he took it in 1903, and stuck tight to it, Dr. H. A. Surface, Pennsylvania's State Economic Zoologist, gave up the fight today and stepped out. Dr. Surface was succeeded by J. G. Sanders, formerly head of the same bureau for the state of Wisconsin. Dr. Surface was asked to resign by the Agricultural Commission. Governor Brumbaugh declined to interfere and the board made no explanatory statement. One probe of this office was public, but the other three were private. He weathered all of them but decided he would not put up a fifth fight to retain his office.

The Great Dissolution Sale Continues

The fact that R. W. Mead, of the Wardrobe (Uttley & Mead), dissolves his partnership and retires from business, men, young men and boys of Santa Ana are given a rare opportunity to **Buy Clothing and Furnishings at Less than Retailer's Cost**

The entire stock must be turned into cash---and at once. You know what such a condition always means---it means price-cutting, and **Big Price-Cutting**, such as the following immense money-saving reductions indicate.

DINNER CHATS WITH WALNUT GROWERS

(By J. G. Berneike, M. D.)

While it is a pretty safe guess that the price on No. 1 nuts will be about 15 cents per pound, a little more or less, it is another pretty safe guess that the first payment will be 12 cents per pound, or about 80 per cent of the net price growers are likely to receive, assuring that the expense per pound will be held close to one cent as it was the past season.

In reference to the price of walnut meats the writer feels less certainty of prognostication. The price will be better than last year, no doubt. The reasons for this belief are:

The cull crop will be far short of that of last year.

A wider distinction and advertising has already been achieved through last year's operations, which means a larger demand.

Advance orders have already been received.

If the French embargo on shelled nuts is not raised there will be an actual famine on walnut meats, because France supplied over 14 million pounds last season, and California only about one million pounds. (The latter estimate is a rough guess, but I believe it fairly near.) Now, consider the situation in France. The crop is reported to be larger than last year. But what about harvesting it?

There's the rub. No doubt every available kind of help will be employed but there is no reasonable doubt that harvest help will be short and more or less of the crop will fail to be properly harvested. Quantity and quality will both suffer. Probably most of the shelling has been done by the members of the household without much aid of machines. We know how much time that requires. Just imagine the havoc that has been wrought in the families by the war, and get an idea of what difference it must make in the farm work. So, whatever the crop prospects, they do not coincide with the harvest prospects. If then the embargo is raised, the export will still be limited, because it is not a bit likely that France will permit unlimited export. And if she did, shipping facilities are at a premium, and rates are high.

All this leads us to infer that the supply of walnut meats will be short, and this coupled with a short almond crop must necessarily raise the price. The only uncertainty is as to how high it may go.

In my own mind there is no doubt that walnut growers will realize more for their culls this year than in any previous year. I would not mislead any growers into thinking that empty culls will be worth any more than they have been. They are not worth the hauling. But I say that culls with edible meats should bring the grower a better price. That excludes mouldy meats. That again means that growers must prevent mould by taking proper care of culls. Again, growers must realize that culls can be properly paid for only on their merits as established by a cracking test. Any other method is more guess, which must result in loss either to the buyer or seller.

A circular from headquarters in-

forms us that the average price paid to the members last year was 3 1/2 to 4 cents per pound of culls. This certainly does not apply to Santa Ana. It may well apply to members of an association like that at C., who, by a misunderstanding, shipped their near-grade nuts to the cracker, and received cull prices. If our members had received the average as stated, there would not have been the many well-founded complaints. The average cull last year was not worth 3 1/2 to 4 cents per pound and may not be this year. Five cents per pound was the very highest that could be paid last year for culls for cracking. As high as 7 cents was paid for bleached culls that were re-sold as walnuts. So, let us have things straight, by all means.

The Los Angeles cracking house is blessed like ours with one of these high-priced cracking machines. With fewer associations delivering culls, and unsatisfactory results of last year, and a short crop, it is likely that the tax per pound for equipment and overhead expense will be pretty heavy, as it must be in our own cracking plant.

Local buyers and Los Angeles peddlers with their small investments will be able to compete successfully with the association plants, and this will result in some measure of benefit to the growers in general, but not to as large a measure as the writer had reasonably hoped to see for the members of the associations.

A cracker, doing "very satisfactory work," bought at an excessive price, does not necessarily mean "very satisfactory" returns to the grower. And that is the pity of it. For if there is, as probably there will be, a raise in the price of walnut meats, it will benefit the grower or the member who sells outside just as much as it does the member who is willing to sacrifice himself by turning his culls over to the association plant. These are facts which should have received careful consideration.

NERVE AND QUICK WIT AID BURGLAR'S ESCAPE

NEW YORK—Orange, N. J., claims the nerviest burglar in the world. Henry Stutz met the man coming out of his house, No. 76 Main street, Orange. The man said he had made a mistake, and had gone to the wrong house. When Stutz found the house had been rifled, he rushed out just in time to see the burglar borrowing a watch from Patrolman William Matthe. When he saw Stutz he fled. Stutz and Matthe pursued the burglar for a mile. The burglar vaulted an eight-foot fence and escaped.

Take Blue Line Stage to Long Beach every hour.

ANNOUNCE SCHEDULE FOR JUNIOR COLLEGE

The schedule of studies at the Junior College was announced yesterday as follows:

English Composition, Shakespeare, Algebra, Chemistry, Nineteenth Century European History, Logic, Psychology, French, Spanish, German and Botany. The faculty includes: Misses Brockett, Coomber, Henry, Swass, Van Deusen and Messrs. Chamberlain, Deaver, Eggen, Hammond, Kelly.

Several courses are offered for the first time. In Spanish a beginning and an advanced course will be given. In the advanced course business correspondence and the geography of Latin America will be taught by one who has lived several years in Mexico and South America. Psychology will be taken up from the practical and experimental standpoint. It is possible that some of the local lawyers and other professional men may enroll in the course in Psychology, Logic and Spanish.

In other cities many professional and business men have taken advantage of the opportunity thus offered to brush up in certain subjects or to pursue new lines of study. Last year several women reviewed French. The aim of the Junior College is to serve the whole community. Information as to the nature of the courses, hours, etc. may be obtained during the registration hours, Monday, September 18, from 8:30 to 12 and 1:30 to 4. All classes will start the following week.

\$25,000 AUTO HOLD-UP TOLD BY RACE DRIVER

NEW YORK—George Adams of 1293 Dean street, Brooklyn, a professional automobile racer, reported to the police at Sheepshead Bay that early in the morning at Avenue U and Garretson's Creek he was held up in Wild West style. He said he was robbed of \$1200, four diamond rings, a diamond stickpin and other jewelry, all valued at about \$25,000.

Three men held him up, according to Adams, and when he resisted they beat him on the head with revolver butts. They jumped on the running board of his machine, held revolvers at his head and ordered him to stop. Adams said. One took his valuables while the others made him hold up his hands.

OAT MEAL The National Dish

This article was written for publication by the publicity agents of the manufacturers of H-O Oatmeal.

Nearly every American eats oatmeal—in fact, it appears on the tables of many well-regulated homes every morning in the year. Authorities agree that oatmeal, properly prepared, is one of the most nutritious and easily-digested of all foods for breakfast. Ordinary oatmeal, however, does not digest readily because it is seldom cooked long enough. It is estimated that the kind usually sold should be cooked at least sixteen hours before it is fit to eat—at the end of which time it has lost practically all of the flavor it originally possessed.

This led to a discovery of a process of cooking oatmeal in sealed cookers at a very high temperature under steam pressure—an exclusive process which bursts the kernels of the starch, changing them into dextrinized starch, which is easily digested by the most delicate stomach. The sealed cookers also cause the oatmeal to retain all the nutty flavor of the carefully selected oats, which is lost in every other process. As a result of this patent process, the oatmeal is not only more palatable and digestible, but can be made ready for the table with only twenty minutes cooking which makes it a great convenience to the housewife.

This is a subject of vital interest to the parents of growing children, because the time to lay the foundation for good health and long life is during childhood. It is what you digest, not what you eat, that makes muscle, bone and brain. Oatmeal is the ideal food for building up sturdy bodies and keen receptive brains, but the ordinary kind does not appeal to many children because of its lack of flavor. This has all been remedied by the steam cooking process, which makes the oatmeal so deliciously palatable that children not only relish it, but call for more.

The oatmeal prepared by the process referred to is the kind put up for the market under the name of H-O Oatmeal, and can be obtained from all grocers by simply insisting upon that brand. It contains nearly twice as much tissue-building material as cornmeal, rice, white flour bread or soda crackers, and is really more nourishing than meat or eggs, while it only costs about one-half cent per dish. Is it any wonder, therefore, that H-O has become known as "The National Dish?"

FACTS ON DRIVE OF ALLIES ARE RELATED BY WAR EXPERT

Entente Progress, While Not Rapid, Still Epoch-Making, Is Opinion

WASHINGTON, Sept. 15.—"The greatest gain scored by the Franco-British offensive on the Somme front has been approximately six miles. General Foch, the French commander, has pushed his line forward six miles at points north and south of Peronne."

This statement was made by a military expert when asked to tell as closely as possible the exact gains made by the French and British forces.

"The greatest gain made by the British," he continued, "is west of Ginchy, where General Haig has pushed forward his fighting line approximately five miles."

"Immediately opposite Ginchy, which is doomed to fall at any time, the British advance was about four miles. Opposite Comblès the French line has moved forward approximately three miles, while opposite Peronne it has pushed the Germans back four miles."

French Gain 6 Miles
"With the exception of Peronne itself, Gen. Foch's line has advanced nearly six miles on a front of seven miles or more. The British line has been thrown forward four or five miles on a front considerably shorter."

"The most stubborn resistance, of course, has been met in front of such strongholds as Comblès and Peronne. The tactics of Gen. Foch, which have been used to striking advantage, are to pocket the great German strongholds and gradually close in on the flanks of the enemy, compelling retirement at terrific cost to the Germans. In this way he is killing, wounding or capturing vast numbers of the enemy."

"While the advance of the British force under Gen. Haig has been slower from the outset, it has been over a rougher country, in the face of heavier enemy forces and made by troops that have not had nearly as much training as the French soldiers."

German Theory
"From the outset the German commanders have proceeded on the theory that their greatest danger was from the British. Whether this has led them to take inadequate measures to hold back the French cannot be definitely stated at this time. If so, they have paid dearly for this error, judging from the sharp and vital advances of Gen. Foch's splendid fighting forces."

"The German general staff may have nursed the illusion that the French could be taken care of later, so long as the British were held back. They are no longer nursing this or other illusions as to the punch of the French commander-in-chief of the Somme."

"In view of the unquestioned strength of the German trenches and the certainty that the flower of the Kaiser's army faced them, the advance of the British on their front will live long in military history as a remarkable achievement."

Terrific Fire
"Trenches which were believed to be virtually impregnable have succumbed to the French and British big-gun fire almost like houses of cards. In many instances it has been literally impossible for the Germans to face the fire and live."

"Despite the remarkable gains of the British and French, there can be no doubt that they are far from a decisive battle on the western front. This can be seen at a glance when it was stated that Peronne is approximately sixty miles from the German frontier."

"This fact, however, does not in any way detract from the importance of the gains already made in the Anglo-French drive. They have captured the trenches which the Germans themselves believed to be impregnable. The sudden and successful

WHAT CALIFORNIA FOLKS SAY.

Pasadena, Cal.—"I want to extend to you my heartfelt thanks for the benefits derived from the use of your medicines, also for the kind and good advice obtained. I am a proud mother."

"I had been a great sufferer, three times I was given up to die—the last time being four months ago. I doctored with several doctors but obtained no relief. Was told that an operation would effect a cure, so I submitted to one, but this proved, like all the medicines I had taken—not beneficial. I obtained, and started at once taking 'Favorite Prescription.'"

"Four months ago the doctors and nurse said it would be a year or more before I would be able to do my household work, and, of course, I thought so myself as I was not able to walk across the floor for several weeks. I am now able to do all my household work and to care for my children and I do not feel as though I could ever thank you enough for the benefits I have received.—MRS. MARIE KIPP, 184 South Pasadena Ave."

The New Discovery for Kidneys, Rheumatism and Backache.

Sent 10 cents with name of this paper, to Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a large sample package of "An-uric." It will convince any one suffering from kidney, bladder, backache, that it is many times more active than lithia, and dissolves uric acid in the system, as hot water melts sugar; besides being absolutely harmless, it preserves the kidneys in a healthy state by thoroughly cleansing them. It clears the heart valves and checks the degeneration of blood-vessels and regulates blood pressure.

thrusts of Gen. Foch this week seem to indicate that the trenches to which the Germans retreated are not nearly as strong as those from which they were driven by the British and French artillery and infantry attacks.

Allies Must Be On Guard
"However this may be, the allies must guard against illusions. It is not at all probable, in view of the thorough preparations made by the Central powers, more especially Germany, for the war that the German general staff has not provided trenches somewhere on a second line of defense which are equally as strong, if not stronger, than those over which the British and French are now passing."

"In view of what they are facing the Germans are putting up a splendid defense. It would require years for the allies to reach the Rhine opposite Peronne if their progress should not be greater at times than it has been during the past eleven weeks. It is certain that the British and French will be able to go forward at a more rapid rate at times. It also is probable that in time the German Emperor and general staff will decide to shorten their line by evacuating large sections of Belgium and France. This would greatly simplify the task the allies have set for themselves of driving the enemy off French and Belgian soil. It also should stiffen the resistance of the enemy."

Epoch Making
"While the progress of the British and French in miles is slow, it also is epoch-making. Its greatest military value, perhaps, lies in the fact that it is keeping the Germans so busy that they cannot strengthen the Austrians in Galicia and at other points where the Russians and Rumanians are pushing them back. As the Balkan drive of the allies develops, the Anglo-French offensive in the west will again operate to prevent the strengthening of the Bulgars and Turks by large forces of tried German troops."

"The fact that the great drive of the British and French is coming at a point so far from the German frontier may be significant. Verdun is only about thirty miles from the German frontier. That is one reason why the Crown Prince tried in vain to carry the great fortress by storm and push the German line further into France at that point."

Tactics
"Of course, the British occupy the northern end of the western front, the French taking up the line south of Ginchy and holding it beyond. Any British and French offensive naturally would come at a point somewhere near this juncture. At the same time, the fact that Peronne is 160 miles from the Rhine seems to indicate a desire on the part of the allies to push the enemy back into his own territory rather than cross the German frontier at other points than the small corner of Alsace-Lorraine already held by the French."

PHOENIX JAUNT WILL BE TAKEN BY 'BRAVES' IN NOVEMBER

Interest In Pigskin Pastime Gets Impetus As Arizona Date Is Assured

Any doubt there may have been in Santa Ana as to whether fall has really arrived has been effectually dispelled as a result of the activities in football circles at Poly High. Fall means football and football means fall. Both are here, in earnest.

One of the first things that has occurred to give the pigskin chasers an impetus was the tentative acceptance of a proposition for the Poly "Braves" to journey to Phoenix, Ariz., and play the high school there on November 11, during the Arizona state fair. To all intents and purposes the deal is as good as closed—the locals will take the trip. There is hardly a reason why they shouldn't as the Phoenix school will pay all expenses. "The early bird catches the worm" idea is beginning to show itself in the form of a football "bug" which has induced several young huskies to begin their training for this year's football season.

Competition for places on the team seems to be so keen that it will be necessary to train incessantly and fight hard to maintain a position on "Kewpie" Sproul, last year's guard, has been going through a system of training for the past two weeks, by running distances on the athletic field and in various other ways. "Kewpie" evidently expects to make good at his last year's job with a vengeance.

Early season training is very impor-

BELL-ANS

Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

tant and the coach desires that all the fellows should begin it as soon as possible.

The High School athletic field will be in condition for practice, beginning with Tuesday of next week, and Coach Smith will be on hand to give any necessary pointers on the game. If enough players show up, practice will continue all during the week. This will give a good chance to those who desire the extra practice before the opening of school on the following Monday.

RADIO SPEAKS U-BOAT 300 MILES OFF SHORE

BOSTON, Sept. 15.—A German sub-sea merchantman, believed to be the Bremen, the Amerika or possibly the Deutschland on a return trip, was spoken by wireless 300 miles east of Nantucket. This report was received by a man who is in close touch with the Eastern Forwarding Company, the agents of Germany's submarine line on this side of the Atlantic.

The Bremen has been expected daily at New London, Conn., for nearly a month. She is reported variously to be from fifteen to thirty days overdue. A Washington dispatch last Saturday stated that she had passed in safety the British patrol in the English Channel, but that she had been given up for lost. She was supposed to have a wireless radius of 2,500 miles and mariners regarded it as certain that if she had succeeded in crossing the Atlantic she would have been heard from many days ago.

If the Bremen was 300 miles east of Nantucket she should reach New London on Saturday or Sunday.

SELLS HORSES AT FAIR

STANTON, Sept. 15.—Dr. Lee C. Deming has returned from the State Fair at Sacramento where he sold over \$2000 worth of horses at top-notch prices. A broken arm, which Dr. Deming is carrying around in a sling at present, is the result of a playful kick from one of the colts.

COMPLETES OPERA

BERLIN, Sept. 14.—Richard Strauss, the composer, has completed the score of his new opera entitled "The Woman Without a Shadow."

F. W. BURNETT DIES

SAN FRANCISCO, Sept. 14.—Franklin W. Burnett, 57, grandson of Peter Burnett, the first governor of California, died here after an illness of several weeks.

RICE REFUSED KAISER

PARIS, Sept. 14.—The Swiss export commission has refused a personal request of the kaiser to furnish his table with rice.

ATTORNEY KEECH'S PROTEST AGAINST DIVERSION FILED

Attorney E. E. Keech, representing the Santa Ana Valley Irrigation Company and the Anaheim Union Water Company, has filed a protest with the State Water Commission against the diversion of the Santa Ana river as proposed by W. J. Hole and E. L. Veuve, Los Angeles men who are interested in a big tract of land between Corona and Riverside.

The petitioners declare that by conducting the river flow in summer through a ditch, water will be saved through doing away with seepage in the river bed and evaporation. They declare that if they can work this salvage they will be entitled to it.

The Orange county water companies are of the opinion that the salvage will be far less than the amount given in the estimates of Hole and Veuve, and are fighting against allowing any steps to be taken that will reduce the water supply at the point where they take out their water.

MARSHALL IS NOTIFIED AND WILSON'S RECORD GIVEN HIGH PRAISE

INDIANAPOLIS, Sept. 15.—The Wilson administration was glorified and the efforts of Charles E. Hughes to discredit it were scored in speeches at the ratification of Vice-President Marshall, which was held here last night. The notification was the formal opening of the Democratic national campaign in Indiana, and in addition to the vice-president, Vance McCormick, now chairman; Senator Thomas J. Walsh of Montana, western campaign manager, and other leaders in the Democratic party were in attendance.

The meeting was preceded by a great parade of Democratic organizations from a score of towns in Indiana, which came to the state-wide rally. The national party leaders occupied seats on the stage, among the visitors being Representative Edward Taylor of Colorado; Scott Ferris, representative from Oklahoma; Bruce Kremer, director of the speakers' bureau at Chicago; National Committee-man Boeschstein of Illinois and William J. Cochran, publicity director at the Chicago office.

MAYOR GILL ANSWERS.
THE TIMES

Mayor H. C. Gill of Seattle in a recent letter to D. M. Gandier, state superintendent of the California Campaign Federation, took occasion to answer mis-statements of Seattle conditions which were printed in the Los Angeles Times. Mayor Gill said:

"I have had many inquiries as to conditions here from California recently, particularly since the publication of an article in the Los Angeles Times of July 15. That article is a falsehood from start to finish, without any basis whatever. This city is more prosperous than it has been for some years, and is forging ahead all the time, and this is largely due to my opinion to the dry law, and I was one of those misguided enough to vote wet.

IN PATHS OF PEACE

The newspapers paid little attention to the meeting in Philadelphia a few days ago of the American Astronomical Society. Yet scarcely any other convention of the year has dealt with such far reaching subjects. Its field was the billions of miles of the starry universe. The meeting represented the best efforts of man to find out facts that lie at the very roots of human existence.

Popular interest in astronomy is not very keen. Probably in the days before books and newspapers, the subject excited more attention. Observation of physical nature was one of very few diversions.

In our own times there has been a revival of interest in all forms of nature study. The fields and woods are full of girls with opera glasses and bird guide books. You find them in rural walks analyzing roadside flowers with a botany text book. At night you see some of them in lonely country roads or city squares, with heads craned to detect the mysterious groups that the ancients marked and named as constellations.

Scientific research has made astronomy a much more interesting study. The operation of orbits and eclipses and seasons has all the fascination of any finely built and smooth running machine. Tracing out the workings of that mechanism gives one a most marvellous sense of the infinite wisdom, skill, and power of the Creative Intelligence.

The study of such nature subjects as astronomy is a wholesome occupation in this restless age. People are never excluded from it by lack of money. The pursuit can be followed in the remotest prairie village, and by the loneliest dweller in the great cities. Every star, bird, or flower identified becomes a lasting friend, whose periodical appearance is one of the landmarks of life. Those who are weary of the fret and strife of modern living should cultivate these peaceful and rewarding studies.

THE LITTLE WHITE HEARSE

It was a little white hearse, and in it was a little white casket.

Following, in a sorrowing group, as the hearse was driven away from the little white home, were the parents and the brothers and sisters of the little white hearse's burden.

Sobbing, the father broke down, and the mother had to clutch his arm to steady him—she appeared the braver of the two.

"And to think that the last thing I said to her was 'You're a naughty girl!'" the father said between his sobs.

"There, there, Harry; Jessie doesn't remember that. She remembers the red tam-o'-shanter you bought her the night before," said the brave little wife.

"I hope so; I hope so!" said Harry. —Stockton Record.

With Malice Toward None
By Henry James

The Blundering Baron

The man who used to be an American, and sometimes was mentioned almost disrespectfully as Willie Wally Astor, does not seem to be having a season of unbroken joy as a British peer. Lately he has selected a coat of arms, and instead of having it embellished with griffins and gargoyles, chose an Indian and a trapper to support his shield.

The protest of his fellow citizens rises even above the clamor of war. They do not like his violation of precedent, and yet American opinion is likely to sustain the peer, if that is any comfort to him.

He descended from a trapper, and the prosperity of the trapper grew out of the fact that the honest Indian could be played for a sucker, as the crude expression has it, readily parting with a valuable skin for a small measure of firewater.

Later the trapper got into the realty business and flourished. It is due to this circumstance that Willie Wally is now competent to adorn his proud station. He still has the real estate. Perhaps a picture of his American agent in the act of not paying taxes would have made a better support for the shield. But, anyhow, the Indian and the trapper beat a mess of griffins.

Explaining the Kiss

An eminent scientist undertakes to explain the feminine impulse to kiss a soldier.

Why explain it? The soldier has not displayed any curiosity on the subject

Tips Banned

Dr. Frank Crane presents an article entitled "If I Were the Devil, What a Job."

I submit that for a man of Dr. Crane's attainment to be giving tips to the devil verges on impropriety.

The Gentleman Burglar

A "gentleman burglar" causes word to be conveyed to the court that in case of too long a sentence he will evade payment by committing suicide.

If I were the court, he would be put to the test, were this possible. The truth is that no sentence could be too long for a "gentleman burglar," not so much because he is a burglar as that he says he is the rest of the title.

Peace Forever After

Lloyd George says there will be no more war in our day, meaning of course, after the end of the present one.

A cheerful view which has generally been held by the optimistic throughout every war.

September Morn

Most people are familiar with the beautiful picture that bears the above title. It is vulgar only to the base of mind.

A rich man in New York recently gave a dinner at which one of the guests is said to have sought to represent September Morn, but lacking frame and glass.

This what becomes of the artistic at the hands of the depraved.

Marital Restrictions

In a criminal case a wife is not permitted to testify against her husband.

Such a restriction must be a hardship to the wife desirous of seeing the old man get his meedings. As a matter of curiosity, I would like to know what is the purpose of blocking justice in this particular manner. There are plenty of other ways to do it that do not look so raw.

The Usual Role

When the railroad men and brothers took the Congress by the throat, the public watched the contest, saying, "So again I am the goat."

Where He'd Shine

Mr. Ford still pays the expenses of various peace commissions, the members of which are having a good time, but not cutting any ice.

If the gentleman were to turn his attention to the adjustment of labor troubles, he would be in his element, and represent far less wasted energy.

Several Silly Women

Just before a bigamist left for the penitentiary the several women who had married him called in a bunch to tell him they forgave him.

Thus we understand how a man of bigamous intent finds victims. He seeks them among the feeble-minded.

Poverty and Sin

A preacher says that most sins are due to poverty. There is no reason for doubting him.

It follows that the abolition of poverty becomes a pressing moral duty. Please, everybody, get busy.

STOP THE FIRST COLD

A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your Druggist's, 50c.

ELECTRIC INSPECTION
ANTICS ARE REPORTED

In the last day or two a tall, well dressed man has gone to a number of residences in Santa Ana and asked to be allowed to inspect electric appliances. In some instances the man has stepped boldly into the houses, but his inspections have been of the most cursory order. No attempt to make sales is reported. He had no badge.

"The Edison company has no such an inspector out," said W. L. Deinling, district manager of the Edison company. "The man's actions do not sound good to me. We have men out who might call at a house and ask for permission to look at the meter, for instance, but every man we have on such duty wears a badge showing that he is an employee of the Edison company, and that badge bears his number. Housewives should promptly and without hesitation refuse admission to any person asking to do electrical inspecting unless he has on an Edison badge and number. Among crooks, this thing of gaining admission to a house under pretext of being an inspector is an old dodge."

A BEAUTIFUL, STRICTLY MODERN bungalow; five large rooms, heater and all built-in effects, screen and sleeping porch; paved street on a 56-FT LOT, near Poly High. I must realize at once. Apply owner, 291 South Birch.

WILSON'S SECRETARY,
TUMULTY, IS SCORED
AS UNFAIR BY 'DRYS'

WASHINGTON, Sept. 15.—Charges that Joseph P. Tumulty, secretary to the President, has been unfair to the cause of prohibition were made by the Board of Temperance of the Methodist Episcopal Church. The rumors of his resignation were declared to be "good news if true."

"It is rumored," the board's statement says, "that Mr. Tumulty, secretary to the President, will no longer hold the office after November 7, but will probably be appointed to a more lucrative post."

"It is good news if true. Mr. Tumulty is without doubt a man of deep convictions and of strong character, but also without doubt he has been responsible for withholding from the President certain facts which would have saved him from making a number of bad appointments, and also from failing to contradict statements made by the liquor people which have aroused resentment among reform forces."

"Mr. Tumulty has been like a brick wall with no gate and broken glass on top wherever a representative Prohibitionist desired to bring matters of moment to the attention of the President."

"It is to be hoped that Mr. Wilson's next secretary will realize that he is not the chief executive himself—no, not even so far as Prohibitionists are concerned."

FORGET YOUR ACHES
Stic knees, aching limbs, lame back make life a burden. If you suffer from rheumatism, gout, lumbago, neuralgia, get a bottle of Sloan's Liniment, the universal remedy for pain. Easy to apply; it penetrates without rubbing and soothes the tender flesh. Cleaner and more effective than musky ointments or poultices. For strains or sprains, sore muscles or wrenched ligaments, resulting from strenuous exercise, Sloan's Liniment gives quick relief. Keep it on hand for emergencies. At your Druggist's, 25c.

NEW WAR PLANS
OF ALLIES ARE
MADE KNOWN
IN PARIS

Italians, Portuguese Will Be
On Firing Line Soon
On West Front

PARIS, Sept. 15.—Before winter sets in it is expected there will be 260,000 Italian troops fighting on the French front. Already two contingents comprising 25,000 men each have arrived in France and soon are expected to take up their positions in the Vosges. All of the Italians will be sent to that region, the mountainous country comprising the extreme end of the fortified line in Alsace.

The Italians will comprise regiments of the Alpini, the men recruited from the mountainous sections of Italy, skilled in mountain warfare, and inured to work in the rarefied air of high altitudes.

That the first contingents soon will be in the actual firing line on the French front is believed here, and it is further thought this fact had something to do with Italy's declaration of war against Germany, as Italians will be engaged in actual conflict with the Germans.

To Supply Guns

Besides these troops Italy will furnish special mountain artillery for its contingent, the guns being of the same caliber as the light French—75 millimeters—but capable of higher angle fire and mounted on different type wheels and caissons, making them more adaptable for hauling up grades. Some of these guns are mounted on skids, so that they can be dragged up steep mountain trails. Italian red cross hospitals also will accompany the Alpini.

Besides the Italians there will be still another nationality represented in the trenches on the western front. Portugal is sending 40,000 men to this front, and it is believed that they already are landed in France. Just what portion of the line these troops will be sent to has not been divulged. More troops may be forthcoming from Portugal during the winter, although it is reported the condition of internal affairs in that country requires the presence there of many soldiers. The recent strike outbreak and other labor and Socialist manifestations have been such that troops are patrolling and guarding railway bridges and lines throughout the country.

Speculation

News of the coming of Italian and Portuguese troops to the French front has caused much speculation among Parisians as to whether Japanese soldiers ever will be called on by the Quadruple Entente to take active part in the world war. For many months the French newspapers have speculated in a desultory manner on the results that might accrue if Japanese were sent here. But always they express fear of the aftermath of such a procedure, the rights and claims that Tokio might make as the price for her further intervention.

Lack of trained and experienced officers is acting as a handicap to the new British army in France, as neutrals and enemies agree that the millions poured in the field from England are of the highest fighting material. Yet their lack of expert leadership is costing them enormous losses and for a long time prevented Sir Douglas Haig from keeping up with his French allies in the Somme offensive.

Before his death Lord Kitchener is said to have stated that the only reason he wanted the United States to enter the war with the allies was that it would enable him to obtain West Point graduates to officer his new formations.

France, next to Germany, is perhaps better off for officers than any of the countries at war, and it is because the republic, like the Fatherland, saves its commissioned men as far as possible. It is well known that snipers on either side pay little attention to ordinary soldiers, being under order to pick off officers only. And therefore it is highly necessary that officers be difficult to differentiate from the men in their trenches in order that enemy snipers may not spot them too easily.

Distinctive Mark

The British officer wears a collar on his tunic like the collar of the jacket of any ordinary sack suit. He also wears a khaki collar and khaki tie. The German sharpshooters have not been slow to find that out and the British losses of officers show the price that they still are paying for this glaring and distinguishing mark.

In the trenches French officers dress exactly like their men—like "mes enfants," as they call the poilus. In the first place, they wear the steel helmet, the casque adrian, which bears no mark of any kind. Their tunics are bereft of shoulder straps, arm chevrons or wrist bands, and, in fact, many officers discard their personally tailored uniforms for the ordinary, ill-fitting, baggy garments served to the poilus by the French government. In this way they are entirely indistinguishable from their men and then try to pot him.

Every French officer from a sub-lieutenant up carries, swung over his shoulders, a pair of binoculars in a black leather case. The German snipers know this perfectly well, so that when they ensconce themselves in a convenient shell hole of other place of vantage they take no chance on revealing their whereabouts for the sake of bagging an ordinary poilu. They wait until they can draw a bead on the wearer of a pair of field glasses and then try to pot him.

Field Glasses

But what is sauce for the goose is sauce for the gander, as all German officers carry field glasses, too, and the French sharpshooters lie in wait for them in identically the same way.

When the French charge in the open with their men they are not permitted to carry their field glasses with them. Nor do they wave a

Pinch Back Suits—the very last word in young men's clothes. See them in our window.

THE CLASSIEST THING IN CLOTHES

—Just received the popular, much-talked-about Pinch Back Suits for young men.

—These models are the very last word in style, the classiest thing on the market.

—And, the price is just as classy—

\$15

—For real value these new Pinch Back suits at \$15.00 are surely wonders.

—They can't last very long at that price.

—Extra \$2.50 special hats to go with the new creations. Let us fit you out for fall now.

—Other models for more conservative men.

Kirven & Company
212 West Fourth St.

sword and shout, "En avant!" The officers carry either a sackful of grenades, the same as their men, or grip a rifle with a "rosalie," as they call the bayonet, carefully affixed.

The Germans in some cases have adopted a ruse exactly opposite in sending out a "wave of assault" in storming a position the German officers carry their binoculars slung over their shoulders, and every private carries a "dummy" pair of glasses, made of cardboard or paper, made to resemble the binoculars, so that the real officer is indistinguishable. The French have captured a number of Germans so equipped with "fake field glasses."

INTERESTING MEETING

Mrs. W. O. McLeod Honored By Life Membership In Mission Society

A very interesting feature of the Woman's Foreign Missionary meeting held in the First M. E. church Wednesday afternoon was the presentation of a framed certificate of life membership in the society to Mrs. McLeod, the retiring president, who has so faithfully and earnestly and lovingly presided for twelve years.

Mrs. McLeod expressed her appreciation of the honor conferred upon her and also her pleasure that \$20 extra money had been raised to add to the funds for her beloved work.

Miss Collings, who had attended the Interdenominational School of Missions, gave a very enthusiastic report and suggested that next year five delegates be sent, one to report for each day.

The following were appointed delegates to the annual branch meeting at Fresno, October 5: Mesdames Robinson, Lee, Palmer and Fitz.

The report of the nominating committee was given by Mrs. Saunby and the following in the list of officers for the ensuing year:

Honorary president, Mrs. W. O. McLeod; president, Mrs. Norton Palmer; vice president, Mrs. Lee; recording secretary, Mrs. A. H. Thiel; corresponding secretary, Mrs. Conner; treasurer, Mrs. J. E. Jayne; superintendent of Extension Work, Mrs. P. A. Robinson; superintendent of Young Women's Auxiliary, Mrs. Fitz; superintendent of Little Light Bearers, Mrs. Davies; superintendent of Literature, Mrs. Lee; superintendent of Tithing, Mrs. Lash; superintendent of King's Heralds, Miss Schalekamp.

Attention, Young Campaigners!

Boys and girls listen! Do you want to pay for your own caps and pennants and get a button besides? If you do, go to the Armory tomorrow afternoon—Saturday—and you will be told how to do it. A large number of girls and boys have already earned the money to pay for theirs. All you have to do is to sell three tickets at ten cents each for the gold medal contest to be held in Armory hall next Tuesday evening, September 19. When you have sold three tickets you will be given half the money, which will be fifteen cents—the price of cap, pennant and button. Isn't that easy? Why, one boy sold nine tickets yesterday afternoon in just a short time. The first three he sold earned his cap and pennant, and for the rest he sold he received one-third of the cash. Some of the boys expect to earn two or three dollars for their own money before next Tuesday evening. All that is necessary is to rustle around and sell your tickets. Everybody should buy one, for the entertainment will be fine and well worth double the price of the tickets. Six young ladies will be in the medal contest and all are prepared to win the gold medal—which is a beautiful prize. Then there will be other pleasing and entertaining features. The proceeds are for our Young Campaigners' fund and will be used exclusively for that purpose. We are planning lots of nice things for our young helpers and it takes money to do anything, so we hope the parents will encourage the children and help us make this entertainment a success.

We Fit the Eyes; Nothing Else.

We are careful; you should be.

WHIST PARTY

Whist Is Played By Guests of Mrs. Spurgeon and Mrs. McFadden

The first large whist party of the season was given yesterday afternoon at the home of Mrs. William H. Spurgeon, Jr., on North Main street, with Mrs. Spurgeon and Mrs. John A. McFadden as hostesses. Bowls and baskets of autumn flowers, gay zinnias and rich yellow dahlias, made here and there a pleasing touch of brilliant color against the soft browns that predominate in the color scheme of the attractive rooms. Progressive whist was played at twelve tables, the hostesses being assisted in keeping score by Mrs. R. L. Bisby, Mrs. Harry Hansen, Mrs. Howard Turner and Mrs. Mark Lacy.

After a few games had been played the guests were bidden to journey to the breakfast room, where trays, silver and the daintiest of salads, sandwiches, cakes and other goodies were arrayed. The merry company then invaded the spacious yard, where seats had been placed on the shaded lawn, and the tempting luncheon was enjoyed out of doors. The games were then resumed, and at their conclusion Miss Wells was found to hold high score, for which she was very beautifully rewarded. To Mrs. L. A. Golliver went the trophy for the second highest score, and Mrs. Higgs was consoled for having the fewest points to her credit.

Personals

Mrs. H. A. Makosky and her daughter, Mrs. Hugh Crocker, of Coachella, who is making an extended visit to her mother, spent today in Los Angeles.

Mrs. H. W. Hinz and her daughter, Mrs. Denton Fritz, were visiting today in the Angel City.

Mrs. Walter Galbraith was a morning P. E. passenger to Los Angeles. Mrs. L. E. Butler, Clyde Butler and Miss Marie Gutzwiller left yesterday for San Diego to remain until Sunday. They traveled by automobile.

Mrs. A. E. Koepsel and son Vernon and Mrs. William Rohrs are at Balboa, where they will spend two weeks. Maurice Knight, son of A. J. Knight of South Broadway, left this morning for Corvallis, Oregon, where he will enter the state agricultural college.

Mr. and Mrs. E. G. Holmes and their daughter, Mrs. Grace T. Wright, and son Frederick returned home yesterday after a three months' visit at Detroit.

Mr. and Mrs. J. C. Lamb, son Dana, Mrs. Lamb's sister, Mrs. Lydia Cooper, and Roy Smith of Tustin returned last evening from a pleasant week's stay at Balboa.

Rev. and Mrs. W. H. Wotton of South Pasadena were guests yesterday of Mr. and Mrs. James S. Rice at Tustin.

Rev. Geo. Huffer, presiding elder of the California conference of the Evangelical Association, went to San Diego this morning to remain over Sunday, as visit to the exposition city is in his official capacity.

Mrs. Emma Morgan of Maricopa is here upon a visit to Mrs. S. T. Miller, the ladies having been very close friends in the early days of Capistrano. The ladies went down to Capistrano today, this being the first visit of Mrs. Morgan to the mission town since 1891. Her old friends here and at Capistrano will remember her as Mrs. Emma Wright.

Miss Emma Hasty and sister and Mrs. Clara Wiseman went to San Diego this morning for a visit of a few days.

Mr. and Mrs. J. A. Propst of Tustin left yesterday over the Santa Fe for Rochester, Minn.

Mrs. Wheat of this city left yesterday for Phoenix, Ariz., where she will remain. She traveled over the Southern Pacific.

Mr. and Mrs. D. M. Peters of Orange and Mr. and Mrs. J. W. Dean left today for San Diego to spend several days. They made the journey in Mr. Peters' automobile.

Lewis Robertson arrived here today from Las Mochas, Mexico, to visit his family on East Walnut street. He will remain a month.

Mr. and Mrs. T. E. Stephenson and son Master Teddy Stephenson went to Kernan today to make a week-end visit with Mrs. Stephenson's relatives.

BURKE WILL ATTEND STATE CONVENTION

J. C. Burke, Republican nominee for assemblyman, will attend the Republican state convention, which meets in Sacramento on Monday. Delegates to this convention are the Republican nominees for United States senator, congressmen, state senators and assemblymen, and the Republican hold-over state senators. This convention is to declare a state Republican platform, select a state central committee and name Republican electors for California.

WAS SPEEDING

"Jack" Wollenberg, well known local automobile repair man, "split the air" on East First street yesterday afternoon, according to Motorcycle Cop Cook, and a ten-dollar bill left with City Recorder Heathman this morning paid for the fine.

Wollenberg was at first disposed to fight the case. Cook caught him at 40 miles. Wollenberg declared that he was not driving at such a speed—that the machine he was driving could not go that fast and hold the road. The matter was taken up with an attorney, but after due consideration the repair man concluded to plead guilty and pay a fine.

LUNCHEON POSTPONED

HONOLULU TO REMAIN; HOME IN FOUR WEEKS

Dolph Divver and Roy West, who left here four weeks ago for Honolulu to remain, returned home yesterday.

They had positions in advance of their departure and expected to make their future home at the Hawaiian port.

They were at Honolulu only one week. Weather conditions and surroundings were not what they anticipated, and they decided at once to return home.

Mr. Divver secured his old position with S. Hill & Son and Mr. West has gone to work for McFadden.

TELLS HOW SAFELY TO RID HOUSE OF FLEAS

Hearing that an attempt was made to rid a house of fleas by sulphur fumigation which came near causing the house to be destroyed by fire, Mrs. Reuben Bradley of E. Santa Clara Ave. today advanced the suggestion that oil of pennyroyal, applied to the floors of the house with a map would have been efficacious in dispelling the insects and would have been entirely safe. A clean mop should be used, Mrs. Bradley states. It should be dipped in water, wrung out, and the oil of pennyroyal poured lightly upon it.

TO GIVE FREE SHOW FOR CHILDREN AT WEST END

Manager Schlesinger is going to give a big free treat to the first 200 children who go to the West End Theatre tomorrow afternoon, between 12:45 and 1 o'clock. Every child will be given a sample package of Pepsinates chewing gum, whether he comes in free or pays his or her 5 cents admission.

This will be a royal time for the youngsters and hundreds of Santa Ana children undoubtedly will be there.

Unclaimed Letters

The following letters remain unclaimed for in the postoffice at Santa Ana, Calif., for the week ending September 16, 1916:

Ana Cool, G. P. Davidson, T. H. Fowler, Mrs. George Gowdy, J. J. Hill, A. Y. McGuire (2), H. M. Mayer, Mrs. J. W. Morgan, Chris Nelson, Will H. Rippey, Mrs. L. K. Robinson, Mrs. Eva Snapp, Mrs. Bert Smith, G. R. Smith, George Wentworth, Miss Ruth Woodward, Merrill Yost.

Jesus Armenta, Juan Arsiniega, Marcos Castro, Miss Teresa Garcia, Concepcion Hernandez, Eligio Nomen, Rencio Nunes, Felipe V. Ochoa, Tantalean Perez, Florentino Pedraza, Seterino Portillo, Frida Ramirez, Waldo Roma, Pedro Vaca Rostro, Refugio Serrano, Ulvana Lausado, Miss M. Silba, Fernando Nolasco.

If the above letters are not called for within two weeks they will be sent to the dead letter office. When calling please say "Advertised" and give date.

CITY HALL

AUGUST DRUNK RECORD MONTH IN HISTORY OF CITY

Laborers Import Jags From Open Cities In and Outside Of the County

With August the record month in the history of Santa Ana for the number of drunks arrested, this month promises to even eclipse the record of last month.

According to the docket of City Recorder Heathman twenty arrests for intoxication were made during August.

Up to this morning, eleven arrests for the offense had been made for the fourteen days of this month that have passed into history. If this ratio is maintained for the sixteen remaining days, the record of twenty made last month will be exceeded.

Santa Ana is a dry town, and the "jags" were not acquired here—they were imported from outside open cities.

The arrests have all been of la-

boring men who have come here to work in the bean and beet fields, or who came here for the purpose of securing such jobs. In many instances the parties were drunk when they arrived and in others the jags were acquired by pilgrimages to outside towns following the first pay day for the individuals.

Joseph Meyer is perhaps the heaviest financial loser of any of the workmen who have gone on sprees following their employment on ranches in this vicinity. Meyer completed several weeks' work for different ranchers on the San Joaquin Tuesday and came into town with checks aggregating more than \$75. After converting the paper into cash he proceeded to "tank up" and yesterday morning found him with swollen head and \$75 in cash missing. He and J. Duprey were arrested the night before by city officers for being drunk. He declared he had been "rolled" and swore to a complaint charging Duprey with robbing him. Duprey is alleged to have put him to bed Tuesday night and to have been the last man in his room and in his company before the theft was discovered.

"For Revenue Only"

Declaring his belief that the arrest here of violators of traffic laws was for revenue only, F. C. Van Valzer today took a two-and-a-half-day jail sentence rather than pay a fine of \$5 for cutting the corner of Main and First streets last Sunday. His sentence will terminate at noon next Sunday.

Van Valzer passed through Santa Ana on a motorcycle on his way to San Diego last Sunday. He cut the corner in sight of Motor Cop Cook and was arrested. He was told to appear before City Recorder Heathman this morning and he came down from Los Angeles to make good.

In his own defense he stated that he did not see the mark at the intersection, and made the circle very near to the center.

BREAKS UP HUBBY'S TETE-A-TETE IN PARK

NEW YORK—Pretty Mrs. Jane Carey, aged 22, of 499 Hudson boulevard, Bayonne, is separated from her husband. She saw him for the first time in three years as she strolled through the city park. He was sitting on a bench talking with a woman. Mrs. Carey cleared for action. Husband John saw her and fled. His companion was not quick enough. A hair-pulling match ensued, and Mrs. Carey dragged the other woman three-quarters of a mile to the police station. A shouting crowd of 500 followed.

Carey's companion said she was Miss Mamie Sheerhan, 25, of 190 Barrow street, Bayonne. Mrs. Carey accused her of disorderly conduct.

AT THE COURTHOUSE

\$5700 DAMAGES GIVEN VICTIM AUTO-BUGGY SMASH-UP

Jury Holds Cafe and Driver Of Machine Responsible For Judgment

A verdict for \$5700 damages was brought in in favor of the plaintiff, Mrs. Lena J. Dugan of Cypress, against the Lodge Cafe and its chef, Max Benkert, of Seal Beach.

The jury that tried the case was out less than an hour when it returned its verdict to Judge Thomas.

That judgment was almost certain to be awarded against Benkert was conceded as the trial progressed, and there was little controversy as to the facts concerning the crashing of the machine driven by Benkert into the buggy in which Mrs. Dugan and others were riding from Cypress to Anaheim Landing for a picnic, on May 17. The chief point at issue was whether or not the Lodge Cafe should be held liable for the act of its chef, Benkert.

There was no question but that the automobile was used by Dave Combs in the business of the cafe. The defense, however, asserted that Benkert was not authorized by the company to drive the machine, and declared that he had taken the machine for a joy-ride and not upon business for the concern by which he is employed. Attorneys G. L. Greer of Los Angeles and H. C. Head and J. C. Burke of Santa Ana took the stand that the cafe could not be held liable for the conduct of an employee who was doing an unauthorized act not intended by him or anyone for the benefit of his employers.

On the ground that the testimony showed that the driving of the machine was not a part of Benkert's business and upon the ground that the cafe was in no way responsible for Benkert's acts at the time of the accident, an appeal will be taken.

Mrs. Dugan, who sued because one arm was permanently disabled, asked for \$10,200 damages. She was represented by Attorneys J. A. Visel, Belcher and Wells of Los Angeles.

Mechanic's Liens

Actions on mechanic's liens have been brought against Benjamin W. Elliott by the Consolidated Pipe Company for \$1032.43 for pipe furnished a well contractor, W. A. Borden, and against Elliott by Borden for \$1637.50.

For Administration

W. H. Jones has petitioned for letters of administration on the estate of William A. Jones, who died on August 26. H. C. Head is attorney for the petitioner.

To Quiet Title

Suit to quiet title to lot 1, Golden

State tract, has been brought by Max M. Henderson against Henry O. Hansen, R. C. Dutton of Anaheim is attorney for the plaintiff.

Sent to Whittier

Oscar Smith, formerly of Los Alamitos, was ordered returned to the state school at Whittier. He was arrested recently on a charge of stealing an automobile at Anaheim.

Won First Round

First round in the case of the Santiago Orange Growers Association vs. Jacob Mueller was won today by the defendant, when the demurrer to the complaint filed by his attorneys was sustained by Judge Thomas. Scarborough & Forgy represent the association and West, Koepsel & Eden the defendant.

The case is one in which the association brought suit against Mueller to collect \$500 for his failure to deliver his fruit. He sold outside the organization.

Koepsel argued the demurrer and it was sustained on his showing that the complaint did not state that the board of directors had passed a resolution declaring Mueller's fruit fit for picking, packing and shipping. Plaintiff was given twenty days in which to amend the complaint.

Informations Filed

Informations were filed today against Earl Dutton of Anaheim, charging him with non-support of his children; George Bowen, charging him with grand larceny; Oscar P. Smith and Fred Castile, both being charged with grand larceny.

Dutton will be arraigned Friday, Sept. 22, at 9 a. m.

Bowen is the man who picked the pocket of R. L. Peck at Seal Beach on Aug. 13. He secured \$120.

Smith is an escape from Whittier and was arrested in Long Beach on August 26th for stealing a Ford car from J. W. Andrews at Anaheim. Smith drove the car to Long Beach and was arrested for heading the machine the wrong way on the street, and this led to his detection as a thief. Castile was with him at the time.

Divorce Suit

Thomas J. Helms today filed suit for divorce from Marie Helms, on the grounds of desertion. J. Marston of Los Angeles is attorney for plaintiff.

IN THE JUSTICE COURT

HE RECOGNIZED HERNONDEZ AS HE WAS SHOT

Testimony of Man Who Returned From Brink of Grave Holds Accused

Declaring firmly and positively that he recognized Hernandez as he was stopped in the dark and shot, Edward Ruiz of Peralta yesterday gave testimony that resulted in ordering Eugenio Hernandez held to answer for trial in the superior court on a charge of attempting to murder Ruiz.

Ruiz, for whose life after he was shot none but he had hope, was shot four times, two bullets going into his brain, one passing through a lung and the fourth through his intestines. At the County Hospital, where he was taken after he was shot, he declared he would not die, that he would live to kill Hernandez.

Ruiz said he was walking away from a house at Peralta where he had been visiting a friend. He said he was shot in the back by Hernandez, whom he saw clearly and recognized. Ruiz testified that he had had trouble with Hernandez, and Hernandez had threatened to kill him.

Attorney R. Y. Williams in cross-questioning Ruiz sought to bring out that Ruiz had been engaged in frequent encounters at Peralta, not only with Hernandez, but with others.

Hernandez's bail was fixed at \$5000. "I want to impress upon you, young man, that when a man is subpoenaed to appear in this court he must do so even if every moving picture show in the state of California has to be closed to permit him to do so. Non-compliance is an offense not against this court, but against the people of the great state of California. I had

wisdom of reading traffic signs.

The young man wanted to know where he should take the car, and Clark told him he might take it to a place where they don't use rubber tires if he wanted to. So the young man started at a pace supposed to lead to that place.

John S. Steiger, a truckman of Newark, approached Clark half an hour later and asked him if he had seen anything of his car. Clark said he had ordered the chauffeur to take it away from the corner. Steiger said he had no chauffeur.

Clark telephoned to police headquarters, and the car, undamaged, and with two elated youths aboard was found in South Orange late in the afternoon.

POLICEMEN HELD FOR THEFT FROM AUTO

NEW YORK—Accused of stealing the horn, tools and tires of an automobile, Michael Boffard, patrolman, and Harry Hall, police patrol driver, were arraigned in Passaic Police Court. Boffard pleaded guilty. Sentence was suspended. Hall was held in \$500 bail.

The men had been sent to bring back the automobile, which had been stolen from Belleville, N. J., and abandoned in Passaic. They brought it back stripped of its accessories.

SANTA ANA DAILY REGISTER, FRIDAY EVENING, SEPTEMBER 15, 1916.

WINTER TO SEE MUCH ACTIVITY IN SANTA ANA BUILDING. IS FORECAST

Local Contracting Firm Has
Many Prospective Jobs
In Sight

"I expect to see extensive building operations in Santa Ana during the winter," said W. T. Elliott, of the firm of Elliott Brothers, designers and contractors, today. "Every indication points to considerable activity. We have had a great many inquiries as to probable cost of residences, and we have many prospective jobs."

"While most of the inquiries have

come from parties who contemplate building bungalows and cottages, we also have been approached by two or three who have business buildings in prospect. On one of these, at least, we expect to receive instructions soon to prepare plans and specifications for a fine business block.

"Those who are considering building should lose no time in getting active, as the cost will never be less than at this time."

W. T. and J. S. Elliott comprise the firm, and they have been busy on contract jobs for some time. The firm now has the contract for the erection of a nine-room house, barn and tank stand for Guy Williams at Capistrano, and started work Monday morning. Williams recently purchased a piece of property at the mission town and will make extensive improvements. His building operations will cost about \$3,500.

Elliott Brothers have just completed a six-room residence for C. S. Cherry, at North Broadway, costing \$2,700, and have a six-room cottage for Laura McClerken, at 910 South Ross, ready for the plasterers.

The firm draws plans and specifications and when they are successful bidders on their own plans, make no charge for the plans.

VEGETABLE MEN AT VILLA PARK LAY PLANS

The product from a larger acreage than last season will be harvested this winter by vegetable growers who are members of the Orange County Vegetable Growers' Association, with headquarters at Villa Park, according to F. G. Yoder, manager, today.

The acreage was swelled by the signing up of thirty-nine acres of the Hixby Development Company's ranch in the Santa Ana canyon. This company will have thirty acres in bell peppers and nine acres in egg plant. Other growers also have entered the field.

No accurate estimates of the probable increase in acreage are as yet available, but it has been definitely established that the territory covered by the association will be considerably larger than last season.

PERMITS ISSUED FOR TWO COTTAGES THIS WEEK

Permits for two new residences were issued this week by City Building Inspector Ash. They were as follows: Mrs. E. A. Winn, five-room dwelling at 1033 West Fifth, \$1,500; S. Stamp, contractor.

D. Wheeler, five-room cottage, 1128 West Walnut, \$1,000.

BUILDING ADDITION

Jas. P. Browne, 712 West Third, has taken out a permit for adding a bath room to his residence. N. L. Galbraith has the contract for the work, which is to cost \$75.

SOUTHLAND BEAN OUTPUT WORTH \$7,500,000 TO GROWERS

Improved Marketing Conditions Responsible For
Gain In Revenue

LOS ANGELES, Sept. 15.—Growers of beans in general in Southern California, and of lima beans in particular, are confidently looking forward to full pocketbooks in the near future.

While it may be a trifle early to compute the profits of the growers of other varieties, the growers of lima beans are expecting to receive more than \$7,500,000 for a crop estimated at 1,800,000 eighty-pound bags. This will be between \$700,000 and \$1,000,000 more than they received last year.

To improved marketing conditions, rather than to greatly increased production, is attributed this gain in revenue. Growers, looking over their rapidly ripening fields, are contrasting present prices of \$5.30 to \$5.42 a hundred with \$4.15 to \$4.25, the prices received a year ago. Those in touch with conditions credit the increase to a shortage in the Michigan crop of white pea beans, for which 7½ cents a pound is being offered and also to the small "carry-over" this year as compared to that of last year.

On September 1, 1916, there were nearly 40,000 eighty-pound bags of 1915 beans in the hands of growers and dealers, the former holding probably 25,000 bags. They were held because some believed the price would reach 7½ cents a pound and not because there was no market. And some sales were made at 6 cents and 6.6 cents a pound.

The conditions were different in 1915. The "carry-over" amounted to about 150,000 bags, the jobbers were well supplied, only a little more than 4 cents a pound was offered and there was small demand.

The acreage devoted to lima beans in California—which means practically in Southern California, as few if any limas are grown north of the Tehachapi—is between 90,000 and 100,000 acres, of which Ventura county has about 45,000 acres. A ton to the acre is a fair estimate of the average crop in that county and the cost of planting and harvesting is figured by ranchers at from \$27 to \$36 an acre.

F. A. Shipley, manager of the California Lima Bean Growers' Association, recently predicted that by November 1 the growers would have received in part payment at least \$1,500,000.

He bases his prediction on the net return to the growers of \$6,202,000 last year on a crop of 1,750,000 eighty-pound bags at \$4.43 a hundred pounds, believing that this year's estimated crop of 1,800,000 bags will total as high as \$7,632,000, supposing the price averages \$5.30 a hundred.

Acreage Yield Jumps
Reports from the Irvine ranch in Orange county, where threshing is now in progress, state that the yield is from two to five sacks more an acre than last year.

The production of limas last year, by counties, follows: Ventura, 1,100,000

Help for Bronchial Trouble and Cough

"Foley's Honey and Tar Compound acts more like a food than a medicine." Mr. Will G. Richmond, Inglewood, Calif., says:—"I wish to recommend Foley's Honey and Tar Compound as it has greatly benefited me for bronchial trouble and cough. It acts so well in harmony with nature that it is more like a food than a medicine."

Foley's Honey and Tar Compound has a wonderful quick way of soothing and healing the raw tickling surface of the throat and bronchial tubes. It loosens the tightness over the chest, raises the phlegm easily, and helps the stubborn racking cough that is so exhausting and weakening. It is the best medicine you can buy, and better than anything you can make, for coughs, colds, spasmodic, croup, whooping cough, la grippe and bronchial coughs, hoarseness, tickling throat and stuffy wheezy breathing. It contains no opiates, and is acceptable to the most sensitive stomach. **Every user is a friend.**

BECOMES RESIDENT OF S. A. ON ADVICE OF L. A. FINANCIER

That Orange county has some good friends among the financial interests of Los Angeles is evidenced by the fact that S. E. Goode is today a resident of Santa Ana as the result of advice given by Former President Elliott of the First National Bank of Los Angeles.

Mr. Goode has been manager of the Whiting ranch at El Toro for the past four years, and closed his connection there the first of this month. He has moved his family to Santa Ana and will engage in business in this city. He is now looking for an opening.

"When I first came in to Los Angeles and was looking about for a new home I was advised that Orange county was one of the richest sections in the state," said Mr. Goode this morning. "The information came to me unsolicited and from a man whom I did not know at the time. I was talking with a number of strangers one day, when this advice was volunteered. Later I inquired who the man was, and was told that it was Mr. Elliott, who at that time was president of the First National Bank."

"My observations since coming to the county have convinced me that the advice was correct. I expect to continue my residence here. The county is prosperous and I know of no place where there is such a diversity of products."

bags; Santa Barbara, 100,000 bags; Orange, 300,000 bags, and San Diego county, 115,000 bags.

Blackeye, white and pink beans are of less commercial importance in Southern California than are the limas, but the acreage devoted to their production is gradually being increased.

Although probably not more than 5,000 bags of pink and white beans were grown in Southern California last year, the development of hill farms has brought this year's yield up to an estimated 20,000 bags.

Last year's crop of blackeyes in Southern California was estimated at 320,000 bags, with an average price of \$3.75 a hundred pounds, although some sold as high as \$4.50. The present quotation is \$3.25. This year's crop is expected to equal last year's.

HAVING PLANS DRAWN N. BROADWAY RESIDENCE

H. T. Rutherford is having plans drawn for the magnificent residence he intends building on North Broadway, near Buffalo.

The lot upon which the residence will be erected was recently purchased from E. E. Richardson of Victorville and Balboa.

SALT LAKE MEN ARE SPEAKERS AT ANAHEIM

Faith In Future of Southland
Expounded By Railroad
Official

ANAHEIM, Sept. 15.—There was no mistake made when the Salt Lake railway officials responded to the invitation of J. Reuther to address the local business men and ranchers at the Board of Trade lunch yesterday. The meeting was more than usually good and the visiting railway officials made a very good impression with the local men.

Reuther, acting as toastmaster, introduced the speakers, who gave a talk on their railway and what it would do for this county when the line is completed. Frank H. Adams, general agent, was the first speaker and he told of the proposed line through Orange county and of his appreciation of the hearty reception accorded the representatives of the Salt Lake line.

T. C. Peck, general passenger agent, told of his dream of controlling this section by building to all of the harbors with feeders through the citrus belts to give them a territory that would be shipped the year around. As a resident of California for twenty-five years, he believes in the great future before this part of the state and was quite positive in his statement that in a few years this will be the leading citrus district.

After Reuther had read a telegram from H. C. Nutt, the general manager, telling of his disappointment at being unable to be present, Douglas White, general industrial agent, was introduced and gave the address of the meeting. White spoke of the manner the general manager had of co-operating with the districts served by the Salt Lake in building for something greater. It is the plan of the new line to help build more business for this section of their territory and a call at any time for aid will receive a quick response on the part of the railway company.

The speaker told of the great future in store for the citrus growers of this district and hoped that his line would have its share of tonnage when the line is completed. Incidentally a hint was dropped that the line would ultimately reach San Diego. He said the Salt Lake was coming to do business on a business basis and that the officials could always be reached on an equal basis by any shipper or prospective customer.

Kafateria Shoe Store, 404 W. Fourth Open Sat. til 10 p. m.

The Hayes 5-10-15c Store Now at 303 Main Street

Will soon be ready for business in our new home at 206 East Fourth Street as the Hayes Variety Store.

It is now two and one-half years since we opened in Santa Ana as a 5c, 10c and 15c store. The results have been gratifying, but with the growth of our business we have an ambition to extend farther and while we shall continue to specialize on everything in 5c, 10c and 15c goods at the same and better prices we shall also add a large stock of better and higher quality goods in the variety line. Come and see.

303 Main Street

YOUR LAWN AND PLANTS

Will do better and look much more beautiful if you apply some good fertilizer.

Wizard odorless Fertilizer is put up for home use, the small amount necessary to use makes it the most economical.

Price, 2 lb. package, 25c; 25 lb. sack, \$1.75.

Santa Ana Hardware Co.

C. S. Kendall, Prop.

YOUR satisfaction
means more to us
than the amount of
your purchase.

The House of Born makes more clothes to measure than any other tailoring house—seventy-five per cent of our yearly sales are made to satisfied customers—their friends make up the other twenty-five per cent.

So we can't afford to let you pay for a Born garment that does not please you in every detail of the style, fit, material and needle work.

HOMES ARE BEING OPENED TO THE CONFERENCE DELEGATES

Residents of the city are extending hearty co-operative assistance to the entertainment committee of the First Methodist Church which has the task in charge of supplying accommodations for the delegates and visitors who will be here next week to attend the Southern California conference of the Methodist Episcopal Church.

Homes have been opened to the delegates and visitors. The regular delegates, who will number about 500, have been provided for by members of the church. The number of visitors will probably be equally as large as that of the delegates, and these will be entertained at the homes of people who are not affiliated with the entertaining church. The call of the committee for a list of rooms in private homes that may be had with or without board, has been responded to by a large number of residents, and indications are that by the time the visitors commence to arrive the committee will have a list of assignments ample to meet all demands. However, those who have accommodations to place at the disposal of the committee and have not reported to the committee, should notify Keith Davis, room 7, Orange County Savings & Trust Bank building. It may be necessary to have more rooms than is anticipated at this time, and it is the desire of the committee to be in position to assign all visitors promptly, and a big list will greatly facilitate the work of the committee.

This will be the first time the conference of this church has ever been held in this city. Ministers and laymen active in church work in the conference district, which includes the state south of Fresno, will be here, and the city will extend its reputation as a convention place by affording ample entertainment for those attending the conference.

10,000,000 ACRES OF TIMBER IN MINNESOTA

ST. PAUL, Minn., Sept. 14.—Despite the general belief that timber days are past and gone in Minnesota, there is a little matter of two million acres of merchantable timber still standing in the state, the department of forestry said today.

PAGE AT WAR FRONT

UDINE, Italy, Sept. 14.—Thomas Nelson Page, the American ambassador has arrived here for his visit to the Austro-Italian front. He was accompanied by Captain Elvin R. Heiberg, military attaché, and Lieutenant Commander Charles Russell Train, naval attaché of the embassy.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

Fannie Ward's Cat

FANNIE WARD, LASKY STAR IN PARAMOUNT PICTURES.

Although cats are not Fannie Ward's hobby, yet she has always been a lover of animals, and in her home in California, where she has been spending the majority of her time recently making Paramount Pictures at the Lasky Studio, she has a cat that would be the envy of any cattery in the country, it having been presented to her by a friend of Jack Dean, her husband, who is in this country representing one of the warring nations and who has been a friend of Miss Ward's for years. The cat is valued at many thousands of dollars.

CHEAPER CARS ARE PREDICTED BY FORD

LOS ANGELES, Sept. 15.—Unobtrusively and—figuratively speaking—with his muffled cut out, Henry Ford arrived in Southern California yesterday, eluded a crowd that gathered to greet him in Pasadena, took a good look at the Southland from top of Mt. Lowe, gave out an interview on peace and popular-priced automobiles and today was scheduled to come to Los Angeles prior to his departure for the Grand canyon late in the afternoon.

The man whose name is honored on all American highways, reached the Crown city aboard his private car Philadelphia and while the rest of his party stayed with the train till it reached the station, quietly dropped off at Los Robles and walked to the Maryland hotel.

Fords Honk Salute

With Mr. Ford on this trip are Mrs. Ford, P. L. D. Perry, manager of the Ford plant at Manchester, Eng.; Mrs. Perry and two daughters. After informing a small army of Ford enthusiasts at the station that Mr. Ford was not in the car, the party joined the flock of little Fords, to say nothing of other cars of other makes, filed past the Maryland honking a salute of honor.

"I am for peace," was the first thing the Detroit manufacturer told the small army of reporters who surrounded him in a quest of his views on the thousand and one subjects and eventualities that form the threads of the fabric of the country's national life.

"Also, I know little of politics and things political," he declared.

"I can add, however, that I believe the people of this nation are also for peace, and that they believe in keeping out of war," Mr. Ford continued.

Cheaper Gas Buggies

"We're going to have cheaper automobiles, there's no doubt of that," Mr. Ford continued. "There is no limit to what prices can go down to provided the cost of materials is kept at a reasonable figure."

"There will be no change in the price of the Ford car next year. Of course I cannot know about the other cars. But the era of cheaper automobiles is coming undoubtedly."

Henry Ford believes that the automobile is the great educator, civilizer and socializer of the people. Its influence is bound to grow, and no one can foretell or exactly appreciate what good roads and facilities for quick and cheap transportation have accomplished and can accomplish for the good of the people and the nation.

"I believe the automobiles are helping in bringing about peace. When people get better acquainted, they are less likely to fight," is what Henry Ford believes about this phase of the automobile's mission.

Plain Laboring Man

The Ford party spent yesterday in sightseeing in and around Pasadena. Mr. Ford is not a stranger in Southern California, having spent several weeks in Altadena on his previous visit.

According to the railroad officials, the Ford party was greeted with much enthusiasm by the people along the route of travel on the way here. Henry Ford, however, does not care for receptions. His arrival in Los Angeles today was scheduled to be unheralded, and driving one of his own "wagons."

"I am just a plain laboring man, and not a capitalist," he declared. "I call myself a laboring man, because I work hard every day, and I do that because there would be little satisfaction in life without work and achievement."

Mr. Ford and his party will leave Los Angeles late this afternoon for the Grand canyon, according to the plans made yesterday.

500 IN FIGHT ON NEWHALL OIL FIRE

LOS ANGELES, Sept. 15.—An army of 500 men spent last night in battling the flames of the strangest forest fire that ever engaged the attention of fire wardens and forest rangers. The forest was a forest of oil derricks located in the vicinity of Newhall.

Derrick after derrick was attacked by the fiery element, which, leaping high, cast a lurid glow for miles around and furnished a dark heavy pall of smoke for the entire San Fernando Valley.

The town of Newhall is threatened, several ranches have been burned over and unless the flames are checked soon state highway and rail traffic may be menaced. Two houses are reported to have been destroyed.

Six Miles Burned Over

The devastated territory, according to late reports, is estimated to have been confined to six square miles. Aside from the destruction of the oil derricks the actual property damage will be slight, and as far as could be ascertained last night there has been no loss of life.

For a time the direction taken by the flames aroused the grave concern of aqueduct officials. Late reports, however, state that the spreading of the fire in the direction of the aqueduct lines had been checked and the first fears that the city's water supply might be imperiled were unfounded.

Another grave possibility which is being closely watched is the possible damage to the high tension power lines which bring the current from the high Sierras for operating the local trolley lines. As yet none of the huge aluminum transmission wires has been affected by the heat.

Many Men Impressed

Every able-bodied man in the vicinity of Newhall has been impressed into service to fight the flames and even auto tourists were forced to leave their machines and join the army of defense.

The fire started from a cigarette which was carelessly thrown aside from a speeding automobile on the state highway about noon yesterday.

Fanned by a heavy wind, the flames gained rapid headway and before they could be checked both sides of Newhall Pass were masses of fire.

Thirty men of the Southern Pacific tunnel crew were the first to be rushed to the scene of the conflagration. Soon after they were augmented by a body of fifty men stationed at Jacques camp on the aqueduct system. Valiant work in checking the flames was done by this crew under command of Bob McDaniels, foreman.

Both these forces were then aided by a company of fifty men rushed from Soledad canyon under command of Forest Ranger S. H. Douglas. For the previous forty-eight hours these men had been fighting flames in Sand and Bear canyons, tributary to the Soledad, under the direction of C. H. Charlton, forest supervisor.

Realizing the severity of the Newhall fire, Charlton divided his force and sent for more aid from San Fernando and Los Angeles. Five trucks bearing fifty men each left here early last night for the fire. Another company was drafted into service at San Fernando at the command of W. A. Rowe, head of the San Fernando fire department and state fire warden for the district.

Several other truck loads of fighters left the city last night and this morning it was estimated that more than 500 men were engaged in battling the flames.

Reports from Soledad canyon last night were to the effect that the fire at that point, while not thoroughly extinguished, was well under control and that backfiring methods have been successful in protecting the forests of the Angeles and Santa Barbara reserves.

WINTERSBURG SCHOOL OPENS

Woman Falling Down Steps of Church Suffers Serious Injury

SMELTZER AND WINTERSBURG, Sept. 14.—The Wintersburg school began Monday morning with Mr. Ensign, Miss Ruth Jordan, Miss Helena Dimmock and Mrs. Stanley as teachers.

A. B. Solomon departed for his home at Hynes Saturday after a few days visit at the Hansley Larter home. Mrs. J. D. Shutt gave a birthday dinner Sunday in honor of Mr. Shutt's birthday. Mr. and Mrs. Earl Gardner and daughters Bessie and Margaret of Bolsa, Mr. John Shutt, Lucile, Esther and Tommy Radford were present.

Mr. and Mrs. Charles Fruitee are the parents of a girl, born last Thursday morning.

Mr. and Mrs. Ed Larter and Buddy were dinner guests Sunday at the Hansley Larter home.

Mr. and Mrs. John Cady and two children motored to Orange County Park last Sunday.

Mrs. J. M. Robinson had the misfortune to fall down the church steps Sunday and fractured her knee.

Mr. and Mrs. George Crane and family took Mrs. Preston to Orange County Park Sunday. Mrs. Preston, who has been visiting at the Crane home, went to Los Angeles Tuesday.

Little Johnnie Kettler is under the doctor's care.

Mr. and Mrs. George Gerhart have returned from Indiana where they have been visiting for several months.

J. L. Farra and daughter, Elva, from Riverside are spending a couple of days with friends here.

Mrs. B. A. Farrar entertained a few friends Saturday, complimenting Mrs. Ed. Moore of Orange.

Mr. Barney Dorne of Los Angeles is taking Mr. Buehler's place in the blacksmith shop. Mr. Buehler is ill of typhoid fever.

Mr. and Mrs. C. H. Maddux and sons spent the week end at Laguna Beach with Mr. and Mrs. Abe Johnson.

J. H. Buck of Santa Paula accompanied by his daughter and her husband, Mr. and Mrs. Walter Harris, visited Friday and Friday evening with Mr. and Mrs. Joe Culver and family.

Albert Isenor left Monday for U. S. C. where he will resume his studies. Miss Hetty Murdy and Miss Myrtle Culver went to Los Angeles Monday. They will attend normal this fall.

John Cady spent Tuesday in Los Angeles.

Mrs. J. D. Shutt, who has been ill, is much improved.

Mr. and Mrs. McConkle from Bisbee, Ariz., are guests at the R. L. Draper home.

Mrs. Linnie Houser spent Saturday and Sunday at Corona with her sister, Mrs. Lloyd Edwards. Charlie and Frank Houser motored to Corona Sunday and Miss Linnie Houser returned home with them.

Wednesday Mr. and Mrs. Hansley Larter went to Highland Park, where they will visit for a while.

The Ladies' Missionary Society met Wednesday afternoon with Mrs. Nathaniel Walton. The time was spent in sewing for the Deaconess home at Los Angeles.

Earl Gardner of Bolsa accompanied by J. D. Shutt and Mr. John Shutt motored to Los Alamitos Sunday evening. They visited with Elmer Radford.

BENSON CALLED MEDDLER

PORTLAND, Ore., Sept. 14.—Charging that S. Benson, millionaire lumberman, noted for his public gifts, is not a fit person to become a citizen of the United States, President Eugene E. Smith of the Central Labor Council today filed a protest with the county clerk. He alleges Benson is a "meddler and dangerous busybody" in local affairs. Benson was born in Norway.

INDOOR LIFE MAKES FAT

Try Oil of Korein to Keep Weight Down, or to Reduce Superfluous Fat

—People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to go to Rowley Drug Co., or any good druggist and get a box of oil of korein capsules and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears.

Oil of korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.—Advertisement.

A Cereal
That is More Than a Breakfast Food

Germea is more than nutritious. It is made from the very "life" of the wheat.

Germea is more than delicious. No one has yet succeeded in describing by word or picture the deliciousness of Germea. It's in the taste. Try Germea once and you'll know.

You get some idea of the goodness of Germea when you realize that but two per cent of the wheat selected is utilized in its production. In other words one hundred pounds of wheat makes but two pounds of Germea.

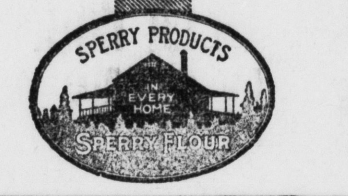

Try This Sperry Recipe
Germea Cake

6 eggs, yolks separate 1/4 cup bread crumbs
2 cups powdered sugar 4 cups Germea
 1 cup walnuts, chopped

Beat yolks separate, add sugar, work in Germea and crumbs and nuts, 1 teaspoon baking powder, then add beaten whites. Bake in layers and fill with whipped cream.

All Grocers sell Germea in the Sperry Air-tight Red Package. Order a package today.

Sperry Flour Company
There is a Sperry Mill within 150 miles of every home in California

It's Summer Now

You expect your labors during this season to carry you through the unproductive winter. So it is with life, you expect the summer days of youth to harvest enough for your needs during the winter months of life. Make a good start now by opening a bank account. Add to it regularly so that your last years may be spent free from the worries of an unprepared for old age.

Good Advertising

Atascadero News, August 12: Out from San Luis Obispo County this month to every corner and quarter of the United States and to many foreign countries, will go by mail the first issue of the Woman's National Magazine, to hundreds of thousands of homes. It is safe to say that not one in ten thousand of the people who will receive and read this magazine ever heard of San Luis Obispo County, or knows that it is on the map. To have a magazine with the largest circulation of any publication on the Pacific Coast, published in this county, is not going to hurt the county.

Consider

the purchasing power of such an army of readers, most of whom have a natural desire to own a home in California. Templeton-Paso Robles district is immediately north of the Atascadero Colony and is already feeling the stimulus of nation-wide publicity.

Right now is a good time to visit the locality and see the fine Bartlett Pears, French Prunes and Almonds being harvested and see the walnuts, apples and other fruits on the trees—all grown without irrigation. Drop me a one cent postal with your name and address plainly written; the booklet I will send you will give you much valuable information.

IF YOU WANT CHEAP ORCHARDS

SENSATIONAL GAIN BY MISS SYLVIA SHIELDS PLACES HER IN THE LEAD WITH 361,360 VOTES

Race For Vote Bonuses and Cash Prizes Comes to a Close Tomorrow at 6 p. m., and Candidates Are All Hustling to Win—Give Them a Helping Hand.

A Gain of 140,000 Votes By Mrs. Myrtle Waffle Places Her Among the 'Live Ones'—A Few More Spurts Like That and She'll Be a "Front Ranker."

Indications Are That the Northern Part of the County Is Going to Come to the Front With a Winning Candidate Before the End of Next Week.

Today Miss Sylvia Shields takes first place in the contest. She jumps her vote up from 187,970 to 361,360, a gain of \$193,390. Without looking it up we believe this is the largest single day's gain yet shown by any candidate.

But O, you tomorrow! No, it will be Monday that the big gains will show up; because many—probably most of the contestants will not take time to report tomorrow in time for their gains to show in tomorrow's published score—they'll be too busy getting NEW ANNUAL subscriptions in their race for the BONUS VOTES and CASH PRIZES which comes to a close at 6 o'clock tomorrow evening.

Miss Ella Davis, who was in the lead yesterday, drops to third place today, and Miss Lue Fipps, who took the lead at the outset of the contest and held it until yesterday, holds second place.

Mrs. Waffle Shows a Big Gain
A feature of today's score is a gain of 110,000 by Mrs. Myrtle Waffle of Lemon Heights. Mrs. Waffle is now fairly in the race—she may be more than that, for she may have many votes in reserve.

Theodore Gilbank also shows a good gain—from 178,600 to 218,600. Theodore is only a boy, but he is a steady worker and is rapidly forging into a position among the front rangers.

Northern End of County to Be Heard From

A wireless message from the northern part of the county is to the effect that there will be something doing in votes next week by a candidate who has hitherto been comparatively inactive. She was called away from home just after starting, last week, but during her absence her friends and admirers have organized, and mapped out a campaign which they say will be a sure winner.

The candidates who have worked their way to the front ranks are to be congratulated, but are warned not to become over-confident to the extent that they can rely on their efforts. Confidence in your ability to win is one of the necessary qualifications that a winner must have, but this confidence must be backed up with your best efforts EACH DAY in an endeavor to get all the votes you can EVERY DAY.

So, then, you candidates who are in the list of the energetic, should strain every effort to keep up the pace that has brought you into the front ranks. As the strength of no candidate in this race has been really demonstrated, they will have to crack the whip at every angle and turn in the road to hold a leading position.

The great race for honors and the handsome prizes offered by the Register is over two weeks old, when it comes to counting the days that remain, but it is yet in its infancy so far as progress that candidates have made is concerned.

It would be nothing at all impossible for a candidate to enter the Register's contest within the next week and be the leader of the entire campaign. Therefore it behooves each of you to take the greatest possible advantage of this week's Vote Bonuses and Cash Prizes offer.

Nearly all of you are employed with your duties or some occupation. If you can get a substitute who can perform your duties for you tomorrow by all means do so and finish the Big Votes and Cash Prizes Vote season up with a rush. Put in a little more time, a little more effort than the others and you have WON.

There is nothing so difficult about winning the big Studebaker Touring Car. All that you have to do is to be the exceptional one. No one is making any "great killing," with votes. Many are doing well, but the fact remains that none is doing enough to "distance" competitors.

Just stretch the point a little bit and do something unusual. Make up your mind to give all your attention to the contest from now until the close of the special offer. Call out your army of vote-helpers and don't let anyone pass you up. Then you will be doing something unusual—you will be the exceptional one—and the exceptional one always looks like a winner.

By doing this you put yourself in the way of being the most likely winner of the beautiful Studebaker "Six" Touring Car.

Ask some merchant if he would be willing to do some hustling for a matter of four or five days, to increase the profits of his business TWELVE HUNDRED DOLLARS.

In other words, we mean that exceptional hustling on your part tonight and tomorrow might result in landing the \$1200.00 machine for you.

IS IT WORTH THE EFFORT?

DON'T NEGLECT YOUR COLD
Neglected colds get worse, instead of better. A stuffed head, a tight chest must be relieved at once. Dr. Bell's Pine-Tar-Honey is Nature's remedy. Honey and glycerine soothe the irritated membrane, antiseptic tar loosens the phlegm, you breathe easier and your cold is broken up. Pleasant to take, Dr. Bell's Pine-Tar-Honey is an ideal remedy for children as well as grown-ups. At your Druggists, 25c.

Is Your Favorite Among These?

Is the Winner In This Bunch?

Clip coupon carefully and write plainly name of the contestant you wish to favor.

AMUSEMENTS

Photographs of actual warfare that carry the spectator into the very heart of the conflict raging in Europe are found in the motion pictures taken by Capt. F. E. Kleinschmidt during almost two years spent with the German and Austrian armies, and to be shown at Clune's Theatre, after a long engagement in Los Angeles, where they were first exhibited in America, Monday and Tuesday.

While any number of war pictures have been shown here there have been none that approach these in realism and intimacy. They were taken during the fighting along the Serbian, Italian and Russian fronts and from points of vantage that often brought the photographer under the actual fire of the enemy's guns. Some of them were taken in the trenches, others from a captive balloon and yet others from aeroplanes sailing over the enemy's positions. In one of these the enemy's shrapnel is seen bursting all around the aeroplane from which the photographs are taken, and although he does not call attention to the fact, show Capt. Kleinschmidt to be a good deal of a hero himself.

hTe pictures cover every phase of the war and bring one into intimate touch with the fighting men on both sides. They show the soldiers fighting, wounded and dying; and they show the terrible harvest of death that is reaped by the machine guns, heavy artillery and riflemen. Men suffer and die before one's eyes in a manner that is strangely quiet and wonderfully impressive. It is all very different from the wars that are made for the purposes of entertainment only. There is much that is sordid and little of the pomp and panoply of war as it is popularly understood; yet it is thrilling and, at times, exhilarating, and there is a grandeur and magnificence to the outward-sweeping troops, the working of the big guns and the rush of the cavalry that there is no escaping.

The pictures have a universal in-

terest. In spite of the fact that they were taken with the German and Austrian army, they still appeal to the pro-ally. It is claimed by Capt. Kleinschmidt that he is strictly neutral. He is an American citizen and he is probably as neutral as a man who has spent two years with one of the armies can be. He is remarkably fair in his descriptions and only once yielded to take a verbal wallop at the allies.

The tremendous devastation that is being wrought is clearly brought out; the pitiful condition of the refugees, the innocent sufferers on both sides, is almost painfully pictured. The wonder of the engineering feats, the perfection of organization, the vast resources that are being tapped, the infinite variety of attack and defense; all are pictured in impressive fashion.

SUBSCRIBERS, ATTENTION!
Should our carriers overlook you in the delivery of the Register, do not fail to call Pacific 4, or Home 409 and a copy of the paper will be sent you by our messenger. Do not call before 5 p. m., as perhaps the carrier has not reached your place, but call before 7, as all carriers should have their territories finished by that hour. Prompt and efficient service is our motto.
